PASTOR IN WAR OVER CHILD

Oaklander Threatens to Bring Kidnaping Charge Against Rev. Geo. A. Snyder

Clergyman Declares He Will Give Up Adopted Baby on Show of Legal Papers

A legal battle, which may result in charges of kidnaping being brought against Rev. George A. Snyder of the Seventh Day Adventist Church of Oakland, is threatened by Benjamin Rose, 1424 Fifty-second avenue, president of the Rose Publishing Company, who declares that the pastor is illegally detaining his 18-month-old adopted daughter. Dr. Snyder admits that he has the child, states that he is keeping it temporarily and declares that Rose has no guardianship papers, and is therefore not legally entitled to sue.

Rose consented, according to his story, to adopt the little one about a year ago, when it was brought to his home by Miss Lillian Graham of 2245 East Twenty-third street.

Miss Graham, according to his story, stated that the legal formalities were all arranged for, but gave him no papers. Rev. Mr. Snyder today made the following statement:

FOUND WITH PASTOR. A short time ago, Rose says, Miss Graham called and took away the baby, as she and his wife thought, only for the investigation, the family found the baby in the possession of the pastor. Miss Graham stated that she herself had adopted the child and has only loaned it to Mr. and Mrs. Rose.

A friend of Mrs. Rose, according to the pastor, later called at the Snyder home and attempted to take away the child by force, but was ejected from the premises. Now Rose threatens legal proceedings, and declares that he will attempt to prosecute unless the baby is surrendered.

"The man will never make a kidnaping charge hold against us," states Snyder. "Miss Graham is the legal guardian, and Rose has no guardianship papers."

Miss Graham has stated to neighbors that she possesses guardianship papers, and is prepared to fight the case. She will make no statement.

PASTOR'S STATEMENT. "I took the child as a matter of accommodation to Miss Graham, and stand ready at all times to give it up when the necessary legal papers are shown me. I understand that Miss Graham has applied for such papers, and, inasmuch as she has all the legal right that I know of to the child, I will keep it until she claims it."

"Mrs. Rose did not appear personally at the time an attempt was made to take the child by force. She sent a Mrs. Jackson and stayed at the foot of the hill waiting for her return. I went later and had a conversation with Mrs. Rose, in which she admitted that she had no legal right to the child."

BIG VESSEL BATTLE IN AFIRE ON ROCKS

Passengers Taken Off Burning Ontario; but Crew Remains to Battle With Flames

Breaks Out During Night and Wireless Calls for Aid Are Sent Out

DUTCH PLAIN LIFE SAVING STATION, L. I., April 8.—The Merchants and Miners' line steamer Ontario, from Baltimore to Boston, which carried fifteen passengers and a crew of forty, is on the rocks off Montauk Point, with a fire raging fiercely in her hold. The passengers were taken off by a tug early this morning and are now alongside the burning vessel. The crew is still aboard, fighting the fire. Two crews of life savers in their boats and three revenue cutters are standing by. A breeches buoy line was shot to the vessel from the shore when she first went on the rocks at 3 o'clock this morning, but the captain, after transferring the passengers to a tug, sent word by life savers that his crew would remain aboard.

Long before daylight, they had dropped a dozen holes through the pilot house and water was pumped by the vessel's own engines into the hold. At 8 o'clock Captain Bood sent word ashore that the fire had been checked. SIGNALS OF DISTRESS. The fire broke out during the night and became so threatening that shortly before 2 o'clock this morning Captain Bood ordered the wireless operator to send S. O. S. distress signals. An hour later he turned back upon his course and drove the vessel full speed ahead for the reefs off Montauk Point.

Through the early morning hours the wireless sputtered along the entire North Atlantic coast with news of the vessel's danger. Ten minutes later the men at the station saw the ship on the rocks, hurried off with a breeches buoy apparatus and later dragged their surf boat on its truck three miles over the beach to the burning steamer.

The life savers, reinforced by a crew from the Hither Plain station, two miles away, transferred the passengers in small boats to a tug and stood off in readiness to take her crew ashore if need be.

Although the flames could not be seen, a great cloud of steam and smoke arose from the burning ship and spread a haze along the water-front for miles.

CONTINUED TO HOLD. Captain Bood told the life savers that the fire was confined entirely to the hold. A light sea was running and there was little wind. The hull of the vessel was badly blistered on the outside.

The Ontario is a vessel of 1987 tons net. She is 290 feet long, of steel and was built in 1904. She left Baltimore Saturday.

The revenue cutters Mohawk and Seneca picked up the wireless call at New York and the cutter Aquanet at Boston hurried to the scene. They were able to give but little assistance, however.

At 8:30 Captain Bood sent word ashore that the fire was under control and the vessel was then hard aground and apparently in no danger of breaking up. The tug Tascos, with the Ontario's passengers aboard, was then still alongside. It was reported that the passengers would be landed at New London, Conn.

A wrecking tug is on the way here from New York.

BATTLE IN NEW YORK NEAR

Wm. Barnes Jr. Arrives at Rochester; Ready for Fight Over Delegates

Boom for Renomination of James S. Sherman Is Expected to Start Today

ROCHESTER, N. Y., April 8.—William Barnes Jr., chairman of the state committee and the advance guard of the delegates to the Republican state committee tomorrow which is to elect four delegates-at-large to the national convention and adopt a platform, arrived today. "The drafting of the platform will be achieved after the more careful consideration and discussion," said Barnes. "That is the business of the convention tomorrow. As to the instruction of delegates to the Chicago convention that will be determined by the delegates at the convention Wednesday."

Delegates of Chairman Barnes made it known that an uninstructed delegation "was to be desired," but Samuel S. Koenig, chairman of the New York county committee was active today in an endeavor to have the delegates instructed for Taft.

Besides United States Senator Elihu Root, Vice-President James S. Sherman, William Barnes Jr. and Nicholas Murray Butler, president of Columbia University, the names of former Governor B. F. Odell Jr. of Newburgh, William Barri of Brooklyn and E. H. Butler of Buffalo have been put forward as delegates, at large.

A boom for the renomination of James S. Sherman for vice-president is expected this afternoon when a delegation from Utica is to arrive.

CLAIMS ARE STRONG. LOUISVILLE, Ky., April 8.—With both Taft and Roosevelt leaders claiming a majority of the delegates instructed at the Republican county mass conventions Saturday, a lively fight for seating their respective delegates is expected at the state convention here Wednesday. Of the 2364 seats in the state convention 842 are contested.

CONVENTION IS ON. ALEXANDRIA, La., April 8.—One of two Republican state conventions in Louisiana this year is being held here today. President Taft's administration will be endorsed, and state delegates-at-large to the Chicago convention will be instructed for him.

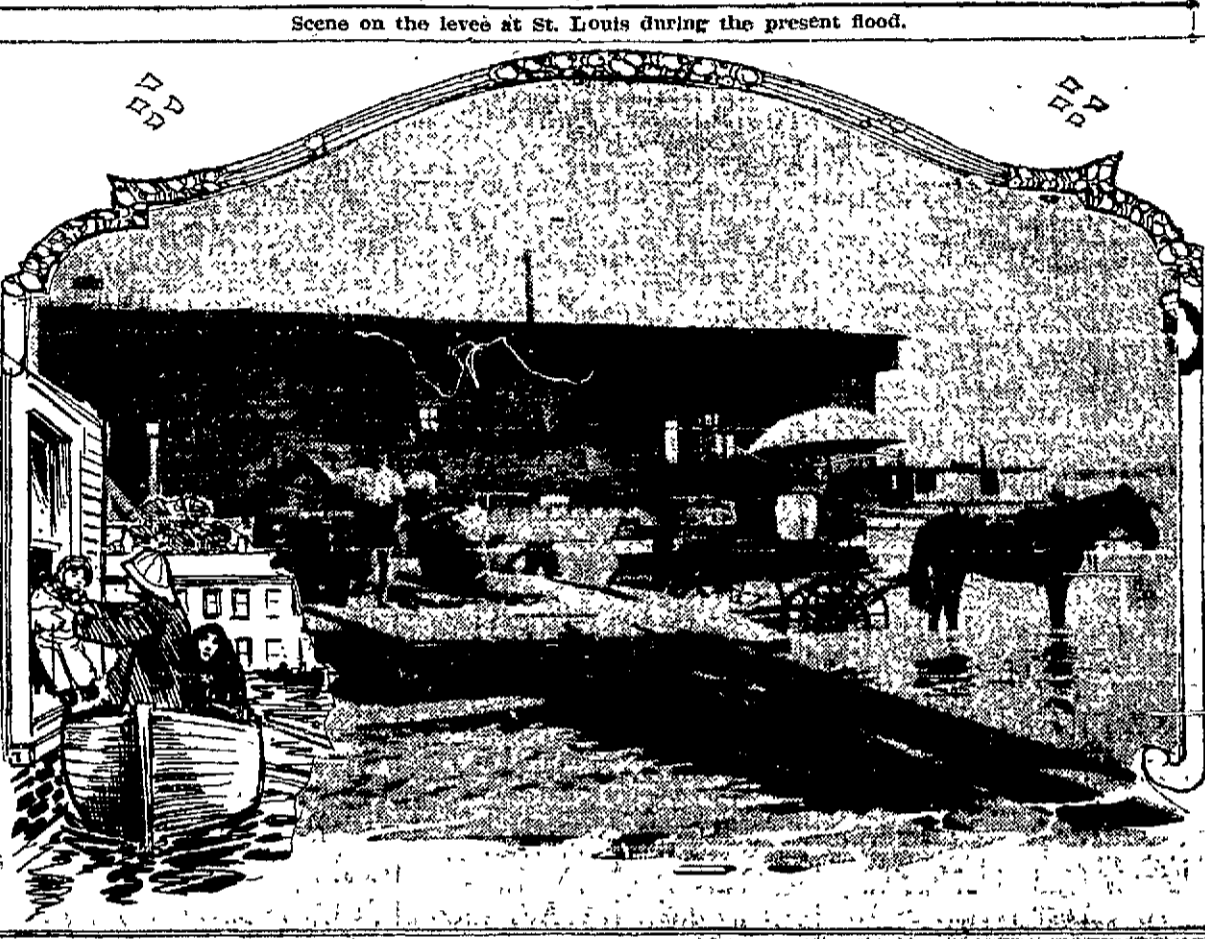

Another convention will be held next week attended by adherents of President Taft and Col. Roosevelt and a split delegation probably will result.

HITCHCOCK TO SPEAK. WASHINGTON, April 8.—Senator Hitchcock of Nebraska will leave here Wednesday to address a Democratic mass meeting at Omaha Friday night at which Governor Harmon of Ohio will reply to personal attacks by William J. Bryan.

Women Talk Too Much, Says Savant Energy They Use in Talking Could Be Applied Better, Declares Greene.

BOSTON, April 8.—Professor Greene, of the Harvard Medical school, has made the unique discovery that women talk too much. In a lecture on the "hygiene of women," he declared: "Yes, women talk far too much. They would be better looking if they listened more. They are nervous, because they do so much talking. The energy they use in talking should be used for other purposes."

THOUSANDS MADE HOMELESS OVER EXTENSIVE AREA IN MIDDLE WEST

Scene on the levee at St. Louis during the present flood.

SITUATION BAD IN EAST

Thousands Forced to Abandon Homes and Flee From Onrushing Water

Refugees Rescued From Floating Houses in Midst of Great Inland Seas

MEMPHIS, Tenn., April 8.—Flood conditions in the Mississippi valley showed some improvement this morning when a "mummy" day gave further encouragement to those conducting the work of rescue among the hundreds driven from their homes by high water.

All levees in the flood-monarched district were holding strong and at this point the river in widest sections of a foot. With upper district levees holding the strain on the dikes in the Yazoo section increased and men worked all night on the embankments south of Memphis to bolster up weak spots. The danger at several points along the Arkansas shore has not passed.

Two hundred levee workers narrowly escaped being swept away when the embankment caved at Jills Post 24, sixteen miles south of Helena, Ark., yesterday.

The town of Modoc near the break is twenty feet under water today. The steamer Kate Adair, a passenger steamer, when the levee broke and rescued those imperiled. A hundred or more panic-stricken negroes were taken from the government barge. Later motor launches went into the floods and rescued a number of farm hands from the roofs of their cabins, from trees and the peaks of knolls which were isolated.

SYSTEMATIZE WORK. The work of caring for the refugees from the lowlands is fast being systematized. Tents and supplies have been received at the more important centers and arrangements have been made for the establishment of a central relief headquarters at Helena.

Captain W. P. Baker, Fortieth Infantry, U. S. A., stationed at Fort Logan and Fort Root will be in charge of the Redfoot Lake region with headquarters at Tiptonville, Tenn.

A relief train sent out from Forest City, Ark., yesterday to rescue farmers in the open forest sections of St. Francis and Crittenden counties returned last night with 100 refugees aboard, but its mission was only half completed. The train could not proceed further than the town of Beth, 30 miles east of here. Beyond that point where many persons are believed to be marooned, only boats can be of service.

WEST TOWN "DRY." New Madrid, Mo., overflowed to a depth of several feet in several places. The anti-saloon supporters won in a local election today. Voters came to the polls in skiffs, in motor boats and on rafts, and when the rubber-boat election clerks completed their count it was shown that the "drys" were beaten by 300 votes. Belated returns from the election were received here today.

Three Mississippi river steamers reached Memphis today, carrying hundreds of homeless persons from the flood swept lands of Arkansas in the Modoc territory. Many of these report loss of life several small towns that were inundated when the embankment was breached.

There is no chance to verify such reports but it is general belief that there have been fatalities in Phillips county, Ark. On thousands of famished persons are marooned by the flood on mounds, house-tops and in a hunch at Wynola, Ark., according to Mayor Crump of Memphis who returned here today after an inspection 12 miles south of Memphis. Boats were sent to their rescue. The refugees in the church built up safety stages of pews as the waters rose.

DESERT HOMES. BATON ROUGE, La., April 8.—Citizens of two towns in Louisiana have been refugees in the last 24 hours, the crevasse in the west of the Atchafalaya river Saturday having forced those living in Elliott City and Little to desert their homes at Wynola, La. The water already has inundated Elliott City and is moving toward Little, between Baton Rouge and the

Break In Cable May Not Be Restored for Weeks

SEATTLE, April 8.—Cable communication with Alaska which was severed last Saturday night by a break in the submarine line between Seattle and Sitka, may not be restored for several weeks. The government cableship Burnside is out of commission and no other vessel is available to repair the break. A cable fracture last month, which was repaired by the Burnside, was caused by a subsidence of the ocean floor in the Strait of Juan de Fuca in the neighborhood of the present break. It is supposed that further changes of level are in progress beneath the sea.

MINE STRIKERS RETURNING TO WORK

Scotch and North Wales Coal Pits Again Scenes of Activity.

South Wales Men Still Out; Will Be Several Weeks Before Prices Come Down.

LONDON, April 8.—General activity prevails in the coal mining districts of Great Britain today. In Scotland and North Wales there was a large increase in the number of miners who descended the shafts, while in England and Southern Welsh coal fields, where the Easter holiday is being observed, small gangs of men went down the pits to clear the roadways and prepare for a general resumption tomorrow.

The full contingent of men is working in North Wales, and as the debris in most of the mines was cleared away last week thousands of tons of coal were raised this morning.

In Flintshire 8000 miners have resumed work, and in the Derbyshire pits the men are preparing for coal getting tomorrow. In Flintshire, Scotland the men have decided not to return until the funds in the treasury of the union, which amount to \$100,000, have been exhausted, and, as the authorities fear trouble between the strikers and the non-unionists who have returned to work, a large force of police has been drafted.

In Southern Wales the prospects are not bright, as the enginemakers, firemen and other surface men have pledged themselves not to return to work until their demands also have been conceded.

The first coal mined will be supplied to the railroads and mills, so that three weeks, at least, will pass before the householders in the cities will be able to buy fuel supplied at the usual price. It is estimated that a longer period will elapse before normal conditions in foreign trade will ensue.

Move Made to Save Life Of Avis Linnell's Slayer

BOSTON, April 8.—The first move to save the life of Clarence V. F. Richeson, the confessed murderer of Miss Avis Linnell, who is sentenced to die in the electric chair during the week of May 19, was made today. The former minister's attorney, William A. Rhine Wine in Airship With Cost of Living

NEW YORK, April 8.—All along Broadway it became known today that the price of Rhine wine is bowed for an advance which may continue until it costs more than champagne. The vintage of 1911 is pronounced the best wine in the memory of any living person. It is compared with the famous vintage of 1811, the "cointet year" and many experts say it is even superior to that. Prices already reached at the Berlin auctions make it likely that the Rhine wine of 1911 will bring \$15 a bottle on the tables of New York restaurants. The first sale reported from Berlin at \$4000 a butt. As a butt consists of 800 bottles, the price figures out at \$5.25 a bottle and there is little of the wine to be had at any price. To this price must be added the duty of about \$1.55 a dozen bottles and the middleman's profit.

Bailey declared that the Pacific Tele-
phone Company had been absolute-
within its rights in removing the in-

taken prior to the issuance of the re-

said the company had decided to put the

this branch of the service.

City Attorney Ben F. Woolner ad-
vised that he considered two of the

investigating committee to be materially different from the telephone company and a probable basis for a successful procedure to forfeit the Home franchise and confiscate the property of the Home company. The committee also stated that the committee and poles Woolner said was the first count was the removal of the stations. Woolner added that the second count against the company, that of removing the Chinese information service might not be so important.

I am now advise the council as to the best procedure at this time, I think we should move slowly," said Woolner "There are two courses pursue Either we may forfeit the bond of \$100,000 or forfeit the Home franchise."

"It would seem that this charge of removing the Chinese information service is the best one to support."

"I feel that the company can

Roosevelt today began a campaign in the district of Congressman McKelvey, Taft's political manager.

There he stated that McKinley bewailed the fact that Taft is a politician. "But as long as Messrs. Tawney, Barnes, Penrose, Gallinger, Cannon, Guggenheim or Lorimer are associated with Mr. McKinley I should not complain of a dearth of politicians," said the colonel. Roosevelt stated that the Taft supporters were mostly professional politicians and that it was a "straight line up." Roosevelt told of his position as a Canadian representative at a meeting in Denver. Both meetings were well attended.

ACTION ON BRIDGES ON TIDAL CANAL

Supervisors Plan for County to Assume Operation of the Structures.

Supervisor W. B. Bridge went on record this morning as favoring action by the county in taking over the government bridges in the tidal canal. There are three structures that at this time are not in operation because the Supervisors have felt that the bridges were not in proper condition and they wanted to warrant their accepting the responsibility.

Some time ago the war department converted the bridges from stationary into the draw type and notified the Supervisors that if they desired the county could assume control.

AN ADVERSE REPORT.
County Supervisor Hayland, was instructed to inspect the bridges and make a report. After a preliminary inspection he informed the Supervisors that the bridges did not operate as perfectly as they might and that certain parts in their construction were giving out in a few years, thus necessitating a large expenditure from the county funds.

The matter of acceptance was postponed until Supervisor Hayland could complete his inspection of the structures.

Today he pointed out in a detailed report where the trouble lies and Supervisor Bridge suggested that the report be referred back to the war department with a request that the government remedy the alleged defects so that the county can accept the bridges in the near future.

STATEMENT BY BRIDGE.
"I want to go on record as being in favor of taking over the bridges," said Supervisor Bridge. "As the situation now rests, the bridges cannot be operated for there is no provision made by the government for men to operate them."

"The bridges should be open to shipping through the canal as there are a number of enterprises which would be a benefit to many men that would locate in that vicinity if the bridges opened."

"The city has offered to furnish electric current for a period of five years without cost to the county. The people over there want something done and I want the result. If we take the matter through as soon as possible."

The report of Supervisor Hayland pointed out the oxidation and corrosion of certain metal parts of the three structures made it imperative that they should be replaced at once. Again, he says that the woodwork in some places has rotted. In summarizing the supervisor says that the structures are in a condition such as might be expected to be found in them after the many years of their service and neglect in care for them.

"Within a maximum of two years a large expenditure would be required," he said.

CONTRACT WITH GOVERNMENT.
"The county has a contract with the government that the bridges should be in repair when they are called into service," added Supervisor Bridge. "It is up to us to see that they are all right before we do so."

The matter was referred to the committee of the whole, which will confer with the government engineers.

"I am also in favor of immediate action," said Supervisor Kelley. "I suggest that we get busy this week."

An appointment will be asked with the governor late in the afternoon to Kelley's motion which was adopted.

ILLINOIS VOTERS TO STRUGGLE WITH PRIMARIES

Complicated Election to Be Held When Choice Is Made of Delegates.

WOMAN'S SUFFRAGE ALSO UP FOR DECISION

Democrats Divided Into Two Sections; Roosevelt on Tour.

CHICAGO, April 8.—Illinois voters will ballot tomorrow in the most complicated primary in the state's history. Members of the two great parties will indicate their choice for president of the United States, United States senator and governor to county coroner, while the question of the suffrage also is before the electors.

The Republican candidates for state offices are divided into three distinct camps, one claiming to be "regular," one having the support of Senator Lorimer and one backed by the "progressive" element. Other candidates not aligned with any of these three factions are up for endorsement for many state and county offices.

TWO FACTIONS.
The Democrats are divided into two general factions, although "unattached" candidates are expected to make good runs. Adherents of Naughton, ex-Chief Justice, will in general support one slate while another will receive the support of a faction led, in Chicago, by Mayor Harrison.

Both big parties will give an advisory vote on candidates for the seat in the United States Senate now occupied by Shelby M. Culom, who is a candidate for re-election.

The state's first presidential primary for Roosevelt, Taft and La Follette bidding for Illinois' fifty-eight delegates to the Republican national convention. The Democrats will choose between Clark and Wilson.

ROOSEVELT ON TOUR.

EASTER CROWDS HEAR CREATOR

Band Is Attraction at Big Pleasure Park; Tonight's Program.

"Have you heard Creator?" This is the question that is on thousands of lips today for Creator, king of bandmasters, stood them up on their chairs at Idora park yesterday when, with the most wonderful interpretation of the grand creation story, he set ten thousand people wild with enthusiasm.

Accepted in its entirety, as it was by yesterday's crowds, Idora's present program surpasses in conception and in appeal all else offered in its history.

Never has the carnival spirit so dominated an opening day at Idora as it did yesterday, never has there been such variety of entertainment. The introduction of a group of circus sideshows had much to do with this result. Here one finds tented freaks that would do credit to Ringling Brothers, there is a striped "top" under which reposes a mammoth boa constrictor and an immense python side by side with performing monkeys.

Across the way is the mummy tent. Everywhere about the grounds are all manner of entertainments and every style and conception of amusement concessions. There is the automatic baseball game for the fans, the slides and glides and loops for the children, young and old; knife racks, the teaser, the new photo shop and the equally new shooting gallery, the run course, the toboggan, the scenic, the Panama canal, the carousel, the rapids, the crazy mazy houses, the new crispets concession and the big grill with its percola porch, where one may take refreshment and listen to Creator at one and the same time.

But, when all is considered, Creator is the magnet who promises to draw even greater crowds than yesterday's to Idora. He has many great programs in store and these will be given every afternoon this week. An especially splendid one will be given next Friday when the occasion will be known as "Verdi Night."

Here is his offering for tonight: PART ONE.
March, "American Navy"..... Creator
Overture, "The Barber of Seville"..... Rosini
Intermezzo "Ruse"..... Frank
Suite Espagnole, "La Feria"..... Lacombe

PART TWO.

"MAN" SCARES WOMAN; CAT, THINKS OFFICER

ST. LOUIS, April 8.—Mrs. Henry Schott, 4545 Cook avenue heard a sound in the furnace room at her home Wednesday evening, and, investigating, thought she saw a man behind the coal pile. She screamed and was sure she saw a man jump through the window.

Mrs. Schott called up Night Chief G. L. Galt. A policeman from the Dear Street station found a pane of glass broken out of the furnace room window, and not large enough for a man to jump through. He reported that he thought the "man" was Mrs. Schott's husband.

Thursday morning Mrs. Schott said she thought she saw a man but if the policeman said she did not, he was probably right.

A WOMAN'S WISH

What Juliette Metzger Would Like to Have.

If a woman could have one wish granted, for the benefit of other women, it would be that all sickly, run-down women might be well and strong again.

Miss Juliette Metzger of New York says "I was in bad health for about a year, on account of my blood being poor and thin. A short time ago I began to take Vinol and it strengthened and built me up right from the start. I now feel strong and well again and wish that every weak, run-down woman knew what Vinol will do for her."

Poor blood—that's the whole trouble with millions of pale, weak, run-down people, and our delicious cod liver and iron remedy without oil, Vinol, is just what they need to make their blood as pure as a healthy baby's.

We guarantee that Vinol will build you up and make you strong—it does not cost you a penny more than it does not to get your blood right. Now is the time to make your blood right so get your Vinol today. The Owl Drug Co., Oakland, Cal.

KNIFE
Old Soldier's Story of Coffee

An old soldier, released from coffee at 72, recovered his health and tells about it as follows:

"I stuck to coffee for years, although it knifed me again and again." (The is just as harmful as coffee because it contains caffeine—the same drug found in coffee.)

"About eight years ago I was taken with a very severe attack of malarial fever. I would apparently recover and then about my usual work only to suffer a relapse. After this had been repeated several times during the year I was again violently ill.

"The doctor said he had carefully studied my case and it was either 'quit coffee or die,' advising me to take Postum in its place.

"I had always thought coffee one of my dearest friends, and especially when sick, and I was very much taken back by the doctor's decision, for I hadn't suspected the coffee I drank could possibly cause my troubles.

**ELSIE JANIS HERE
IN 'SLIM PRINCESS'**

**Clever Star and Capable Com-
pany Open at Macdon-
ough Tonight.**

Elsie Janis, who for three or four seasons was known as the wonder child of the American stage by reason of her marvelous mimetic ability as demonstrated in her imitations and characterizations of famous actors and actresses of Europe and America, has now graduated to full stelar honors as a comedienne and at the age of 21 has also gained some slight recognition as a singer. She first appears at the Macdonough tonight. Everybody knows of the success Miss Janis made under Dillingham's management in "The Hoxden" and lately in George Ade's whimsical college comedy, "The Green Carnation." Last season Dillingham secured her

her a vehicle which required a considerable extension of her abilities and talents along the lines of legitimate comedy, while it still offered her ample opportunity to display her matchless gift of mimicry and her protean accomplishments as a dancer and interpreter of humorous songs. This new musical comedy, for it is a musical comedy—in three acts—is entitled "The Sicilian Romance," and is written by the talented most successful of light fiction the play is taken from George Ade's ludicrously funny novelette dealing with the adventures of a Turkish belle of high degree, who found it impossible to

accumulate sufficient aridropols to even enter the beauty class among the women of her native country where the criterion of feminine charm is measured by a redundancy of curves.

The Princess Kalora simply could not get fat enough to please her "pa" and her "ma" and the many fastidious young gentlemen who might have been anxious candidates for the honor.

of her hand in marriage. Taking Mr. Ade's whimsical idea from the novellette Mr. Henry Blossom, author of "The Red Mill" and "Mlle. Modiste," wrote an excruciatingly funny libretto to which Mr. Leslie Stuart, the composer of "Floradora" furnished a beautifully witchingly illustrative musical score. Miss Janis was never seen to such advantage as in "The Silt Princess."

Besides Cawthorn other well known principals in the cast are Miss Julie Trarr, Eugene Ryvere, Nell Walworth, Oscar Ragland, Miss Florence Williams, Louis Baum, Charles Judels, Douglas Stevenson, Miss Estelle Babin and Albert Stunt. The orchestra will be under the capable direction of Mr. W. A. Macgillivray.

NEW VIGOR GIVEN HOTEL OAKLAND STOCK CAMPAIGN

\$5000 AT HEAD OF LATEST LIST

Wallace M. Alexander of Piedmont Comes Forward With Spirit of Loyalty.

Amount Thus Far Received Well on Toward the \$150,000 Mark.

New vigor has been given the campaign for additional stock subscriptions to the Hotel Oakland furnishing fund by the announcement this morning of several substantial new pledges. These bring the amount thus far received well on toward the \$150,000 mark, with the success of the campaign not far distant.

In one of the subscriptions announced today the inter-community interest in the enterprise has been given another manifestation. Wallace M. Alexander, a resident of Piedmont, headed the list of new subscribers with the sum of \$5000. Although Alexander is not interested in the city and its concerns by actual business connections, he has shown his interest in the general welfare and prosperity of the east bay regions by this latest subscription.

It is this public-spiritedness on the part of citizens in the cities on the east bay shore that has made possible the erection of this important structure as the new Hotel Oakland and which will contribute to the success of the new hotel when it is opened.

ALL ARE WILLING.

There has been little or no attempt on the part of local business men to avoid substantial subscriptions to this vital project. The men who are in close touch with the commerce and labor of any community are the ones who best understand its possibilities. These men have subscribed, and subscribed liberally to the fund of nearly \$150,000 for the new caravansary. They realize that while they have themselves to thank in large part for their success, they also have the community as a whole, apart from the individual, as a great contributive agent. They know a man cannot be a success by himself alone, and that he in turn owes a distinct measure of remuneration to the city and its people for his prosperity.

Few are the men who are so shortsighted that they say, "I won't give anything for the town has never done anything for me." Men as blind as that have done nothing for themselves compared to what the town has done for them. Fortunately for the good of the city and county such men are rare and can be readily dispensed with.

The other spirit has prompted Oakland's bankers, merchants, lawyers, real estate men and others in many lines of business to invest heavily in stock for the hotel. When the association director found that an additional \$250,000 was needed to completely furnish the building for its opening, the appeal for more help was heard by these same men and most of the recently announced subscriptions have been made by the same individuals and corporations who subscribed for the original stock. And as these men are the leaders in the city's financial circles, their judgment and faith in the project and in the success of the community to support it is a gratifying commentary on Oakland and its people.

LARGE SUBSCRIPTIONS.

Thus far the subscriptions announced have all been large ones. The list has been headed by the first of the campaign by one of \$20,000 made by F. M. Smith, who all along has been one of the most earnest supporters of the scheme. Four of the amount of \$5000, one of \$4000, one of \$3000, one of \$2500, and the remainder, thirty-nine of \$1000, have thus far been secured. Today new subscriptions add several more to the growing list. The fact that no subscription less than \$1000 has thus far been announced speaks well for the spirit of the men who have added their names to this list, indicating conclusively their willingness to invest seriously their wealth in the undertaking, and invest heavily in the undertaking.

This work is the crowning achievement of the boosters of this city. It is an actualization in brick and steel of the metropolitan and cosmopolitan spirit of the times here and when in a few months it is filled with hundreds of tourists, all testifying to the beauties of Oakland and its commercial advantages, the hotel will give to Oakland what it has long and sadly needed, a city-center atmosphere that has been heretofore lacking. The city now has its magnificent new city hall, its metropolitan stores equal to any in the West, and its natural beauties. With the completion of the hotel it will have also a fitting headquarters in which to entertain the visitors of the world.

SHORT CHANGE MAN HELD AT CITY JAIL I. W. W. ADVOCATE PROPERTY DAMAGE

Believed by Police to Have Long Record as a Criminal.

Believed by the police to be the man who has short-changed half a dozen local stores, Alfred Knowles, who has a prior police record, is being held at the city prison and will probably be charged with vagrancy. Knowles was arrested by Inspector William Kyle and when brought to the city hall became indignant at the action of the police in placing him in custody, declaring that he would sue for false imprisonment.

Despite the threat, Knowles was removed to the identification bureau, where identification expert Harry Caldwell gave him a "once over" and identified him as a man who had been arrested on similar charges before, and had been convicted.

Knowles is said to have used the method of making a small purchase for which he offered \$10 in gold in payment. After he received the change he would suddenly discover that he had small change to the exact amount of the purchase, would tender this in payment, receive back his gold and walk away before the bewildered shopkeeper realized that he had been mulcted of the change he had given for the gold.

WOULD HAVE CHILD TAKE MOTHER'S NAME

Woman Writer Promulgates a Remarkable Sex Doctrine.

TO REMOVE STAIN OF ILLEGITIMACY

Urges Removal of Opprobrium for Unmarried Women of the Future.

NEW YORK, April 8.—In the most remarkable and radical discussion of the woman movement yet put forth, Karin Michaels—whose "Dangerous Age," published two years ago, set the "old-fashioned folk" in quite a panic by its views on life—declares that in the day to be for women, any unmarried woman who wishes for motherhood can "fulfill her destiny" with the approval of the world.

Mrs. Michaels in private life is the wife of Charles Emil Strangeland, who is secretary to the United States legation in Bolivia. She is a daughter of Baron and Baroness Joost Dahlerup, who are living now in this country. She was born in Denmark, and counts among her friends the late Henrik Ibsen and Ellen Key of Norway.

CHILD TO TAKE MOTHER'S NAME.

"The time will come," she said today, "when women have finally reached the ultimate solution of their position in the world under its fast progressing evolution. When any child is born, it shall take the name of the mother instead of the father, as they now do."

"Then, too, the time will come when all women, regardless of whether they are legally married, will take on the mother's title of 'Mrs.' as a respectable, respectable name, and only young girls will be called 'Miss.'"

"These are the entire matter in a nutshell. There can be no illegitimate children; that is, people will not know as they do now, whether a woman has been married or not, and naturally, if the mother goes by Mrs., and the child bears her name, who will know and who will care whether she is married to the father or not?"

"Today the opprobrium falls on the child. It is there the harm is done, and in our crude way of reckoning the child born out of wedlock must live the life of one in shame—a pariah, a social outcast. When we have reached the time when a human life is too precious, too wonderful a thing, ever to be received as a sin or a stain on mother or fatherhood. But not until woman is awakened, not until the development of a broader culture has brought woman to her present and increasing sex dominance, may any means evolved to overcome this cruel blot on humanity. The day will come when an 'Aurora Leigh' and a 'Scarlet Letter' will not be written—the proverbial will not be there."

Mrs. Michaels also believes the day is approaching when women shall not have to wait for a man to propose.

"She will seek her own husband," she declares, "and propose to him. Why should a woman have to wait until she is asked to marry? Why shouldn't she have the right to ask a man to marry her?"

"Rudeness is the cause of much of the ill-feeling, the discord of the world of today," she contends. A modesty that is nothing short of barbarous as it acts upon her.

"Take, for instance, the standing of women in your crowded street cars and subways. I have seen dozens of women standing and every seat occupied by men. Whose fault is that? I say woman's. It is because women do not insist upon men giving them the seats that they do not get them. They are too modest to do so. They are not feeling well or that they are not strong."

MARRY WHEN CHILDREN.

Mrs. Michaels declares many other reforms must take place if we would become a greater nation.

"I have watched with great interest the young girls of your country—the girls of leisure, the daughters of the cultured classes," she said, "and I find that none of them are at the marriageable age more than children."

"Your education is largely responsible for this. In some ways it means to have an enormous advantage, but on the other hand no parents have the right to send a young girl with the heart of a child into the mature responsibilities that begin with her wedding day. No woman should enter matrimony whose heart and mind are not developed."

Mrs. Michaels is stopping in New York temporarily with her sister. When seen today she was a curious, somewhat old-fashioned looking black silk gown of the Victoria era, over which was an emerald green robe of Oriental coloring. She wears her hair in a quaint old-time way—with side rolls and a part in the middle.

RULES ON LOCAL OPTION ELECTION

Deputy District Attorney Declares Two Sets of Officers Will Be Needed.

That the local option election for Washington, Murray and Pleasanton townships can be held at the same time as the presidential primaries, May 14, or on a special date is the opinion of Deputy District Attorney Leon A. Clark who is preparing the election can. The date has not been set by the Board of Supervisors.

Whether on May 14 or some other day Clark points out that there will have to be a separate set of election officers for the reason that old persons qualified to vote at the primaries would not be eligible to cast their ballot on the local option question.

Clark reported informally to the board today.

"One of the reasons why two sets of election officers would be necessary is that the law requires that the ballots of an election be counted immediately after the polls close. If there were two elections it follows that one of them would not be counted in one and thus the law involved. The matter has not been taken in this State but the attorney general has given his opinion that such procedure would be dangerous."

Superior Murphy suggested that the election be held a week later than the primaries. The board will set the date next Monday.

APPEALS FOR AID TO PEOPLE OF U. S.

Agent of Central China Famine Relief Committee Makes Plea.

Cassien E. Parsons, agent Central China Famine Relief Committee, 670 Yale Station, New Haven, Conn., requests THE TRIBUNE to publish the following statement:

"Despite every effort a million helpless flood victims are being carried away by the famine in East China. The region is accessible to relief, and those of us who broke up the previous large famine with American relief, know the present situation can be met if funds sufficient to equip the missionaries are contributed at once. Relief goes forward by cable, as but 50 days remain until the tragedy will, if not prevented, be over. On March 27 the American minister at Peking cabled the following to our state department at Washington:

"Conditions in famine district are appalling and growing worse. Relief being a few but a million starving famine never increasing death rate. The Chinese government has asked for \$1,000,000 in the United States would contribute but \$15,000 has (March 25) been received."

"European benevolence faces a gigantic famine in Russia, and in India, a second one, placing the burden of moral responsibility for meeting the Chinese situation on America. The three-fold purpose of wholesale saving of life, elimination of future famines through inauguration of modern engineering methods by relief work, and the removal of racial feeling against the Chinese will be accomplished by facing facts as they are."

"All agencies, particularly the church having humanity's welfare at heart, should co-operate without delay. Persons of wealth should find satisfaction in saving life in this manner, and all individuals seek to avert a staggering blow to New China's confidence in us. Local emergency committees may well be formed in centers where they do not exist."

"Funds should go to: (1) The American Red Cross, Washington, D. C.; (2) China Famine Relief Committee, (a) 1 Madison Avenue, New York; (b) Boston; (c) Philadelphia; (d) Chicago; (e) St. Louis; (3) Foreign Mission Board; (4) local banks, to be forwarded to the International Banking Corporation, New York or San Francisco; (5) The Christian Herald, New York."

Major Gagner says he is not presidential candidate. Still, this is the day of the overwhelming popular demand, and one never can tell—New York Telegram.

A Lesson in Loyalty to Oakland.

Can the baseball fans of Oakland "come back?" The answer might have been found at Freeman's Park yesterday morning, at an hour when Sunday breakfast is usually being served. Enough people to fill the Greek theater were jammed into the grandstand, the bleachers and along the sidelines. It was Easter morning and the home team had won four out of five games during the opening week of the season. Confidence abounded. And there was a reason for faith in the home players, for they made it five straight in the morning and six in the afternoon, out of seven games played.

If anything could have detracted from the absorbing interest in that after-breakfast contest it would have been the Easter millinery. Spring bonnets in all their variety almost compelled attention, even for the men.

We are sure of the hold which the national game has on our town when we find several thousand pretty Oakland women, modishly attired and Easter-bonneted and smiling sweetly enough to make every player do his pennant-winning best, seated in the grandstand at 10 o'clock in the morning. However uncertain woman's morning appearance at home may be, she is all charm at a forenoon ball game. It was difficult for the men fans to keep their eyes on the contest.

Thirty street cars waited at the gates for the crowd. Nobody counted the automobiles, nor the fans who walked, making an Easter parade all along San Pablo avenue.

The only means of further increasing the size of the home bleachers is by "revision upward." If the fans continue to storm the park as they did yesterday morning, a second story on both bleachers and grandstand may become necessary.

Twenty years ago a baseball season opened in Oakland, and the series was between the Oaks and the Seals, just as it was last week. A new grandstand had just been completed, and the boast was that it would seat 640 people. The new bleachers seated 450 more. The files of THE TRIBUNE of April 6, 1892, tell how conscientiously Colonel Robinson had prepared for a large crowd.

Colonel Robinson, nor any other Oaklander of two decades ago, dreamed of a day when 10,000 people would flock to a ball park before noon on Sunday. The flourishing state of the national pastime and the support given it in this city has a meaning outside of sportdom. It is indicative of citizen loyalty which may be turned in other directions in the development of a great city. Twenty thousand people in one town who have a common sentiment regarding a thing are capable of immeasurable team-work accomplishment. There were ten thousand spectators at Freeman's Park yesterday morning, three thousand spectrally absorbed in the diamond plays as shown on THE TRIBUNE score board on Tenth street, near Broadway, and at least seven thousand more, including men, women and children, were awaiting elsewhere the result of the first week's series in which the home team engaged.

Twenty thousand people who have a feeling of loyalty in one direction should be able to turn that fealty into such movements as entertaining large conventions, in supporting important bonding enterprises, in completing a magnificent hotel, to be a lasting monument to the city; in making successful many other civic enterprises.

The Chronicle is highly pleased because Mr. A. H. Elliot says the only matter touching the gobbling of Oakland by San Francisco is the form of government to be chosen for "Greater San Francisco."

Any statement made by Mr. Elliot on that subject wins only the contempt of Oakland, and adds to the detestation in which he is held by the men here whose capital and enterprise are going into the rapid expansion of this city. Mr. Elliot is not one of these men. He is held to be their enemy and the enemy of every interest in Oakland.

If he is not paid for his exertions to injure this city by annexation, he ought to be, for it is hard to attribute his activity and virulence to a disinterested sentiment.

From the size of the sack carried away from Freeman's Park yesterday morning it was evident that there was something else going on besides church services. More than ten thousand fans communed with Nature, and incidentally looked on at the ball game.

Alameda County Advertised Abroad.

Reports from the International Exposition at Turin, Italy, of the attention attracted there by the exhibit of Alameda county products made by the Alameda County General Exposition commission through the California Development Board, serves to call attention once more to the importance of the work done by this county organization. The commission has been in existence now nearly ten years, yet is little known by the general public. It was created by act of the board of supervisors and is supported by county funds in its efforts to advertise the county through the exhibit of fruits, flowers and manufactured products throughout the east and Europe. The exhibits have been shown at Turin for several months past, were later taken to Berlin, and now will be brought back to this country. The supervisors are doing an important work in this way and a work that deserves much more recognition than it has received thus far.

Dr. Pardee, as "The Wayfarer," in his organ, the Enquirer, is suffering from a chronic grouch. Carefully avoiding an answer to THE TRIBUNE'S statement of capital facts in his political career, the Dr. pulls out his grouch and announces that Herrin is the leader of the Taft forces in California! We suppose that there is not a man in California who cares less who is President than Herrin. If there be any leaders of the Taft movement in California, they may be found amongst the promoters and directors of the Panama-Pacific fair, who remember the decisive friendship of the President in the crisis at Washington, when the choice between New Orleans and San Francisco was in the balance.

Aside from all other considerations, California should stand by Taft if she were the only state to support him. Fortunately the Tardes and Johnsons are not sufficiently numerous in the United States to force this test of the state's gratitude, and California will only have the pleasure of adding to a majority already in sight.

Cost of Schools and Police.

In an interesting monograph Dr. Harlan Updegraff, specialist in school administration of the United States Bureau of Education, declares that if you compare the cost of a city's police force with the cost of its school system you have one indication of that municipality's interest in education. In this connection it is gratifying to note that as the result of painstaking investigation Dr. Updegraff finds that every American city spends more money on its schools than on its police. This investigation embraced 103 of the 184 American cities which the 1910 census showed to have a population

"O WOODMAN, SPARE THAT TREE!"

—PHILADELPHIAN ENQUIRER.

of 30,000 or more. This list Dr. Updegraff divided into four groups. In the first group he found that the general practice was to spend about 26 per cent of the total revenues on the public schools, or \$2.12 for every dollar spent on the police force. Minneapolis made the best showing, giving its schools 37 per cent of its entire income, or four and one-quarter times as much as it spent on its police. The second group, which includes 20 communities with a population of 100,000 to 300,000, generally speaking, devoted a little more than one-third of their incomes to education, or three times as much as they gave their police. Here Scranton did the best by its schools, with expenditures for them amounting to practically half of all its income, whereas its police force got only one-sixth that amount. In the third group, which comprised 42 cities with a population of from 50,000 to 100,000, it was demonstrated that they are spending about 36.5 per cent of all the receipts on education, or three and two-fifths times the police appropriations. Johnstown, Pa., takes first prize, standing about where Scranton does in the list ahead.

For the fourth group, 28 cities which have a population of 30,000 to 50,000 expend practically 38 per cent of their revenue on schools. This is fully four and one-third times as much as the police department receives. Here Topeka, Kansas, and Joplin, Missouri, are tied for first place, each with a showing of an even 53 per cent of all revenues to educate their children. This was 4.9 times as much as Joplin gave its police, and more than eight times as much as Topeka devoted to the same purpose.

A circular just issued by the United States Bureau of Education deals with an educational experiment at Dayton, Ohio, whereby the school children are segregated in a special high school for their first year after graduation from grammar school. "In this school," it is declared, "there are no older pupils, and the simplicity of childhood is maintained in dress and manner for another year. The children are able to develop more naturally without the influence of older pupils."

This is held to be an advantage in many respects, one argument in its favor being presented as follows:

"There is a tendency on the part of the older high school pupils to overdress and adopt the styles and fashions that make them seem more mature in nature and appearance. The younger pupils are quick to imitate the dress and manners of their older schoolmates. This leads them into indiscretions and robs them of an important part of childhood. The expense of overdressing falls heavily upon most families and tends to discourage many parents from keeping their children in school."

Complaints from some of the southern cities yesterday that the churches were not filled, as they usually are on Easter Sunday, may not indicate a falling off in interest in the tenets of Christianity, as some of the pessimists would have us believe, but only that the floods prevented the arrival of new Easter bonnets for the religious devotees.

Our City Architecture.

Tomorrow the council takes up the whole question of the administration of the architectural affairs of Oakland, following the suggestions of the meeting of the Chamber of Commerce and other organizations.

Oakland is to put much money into public buildings. We have the skill in architecture and the capacity to supply constructive material, without drawing anything from the outside. It is offensive to the self respect of our people that the supervising architect, Mr. Donovan, should say that he has drawn from the outside "in order to give class to the work."

There is nothing in architecture that is esoteric. Knowledge in that art is common knowledge and is not held in monopoly.

We hope the council will consider well and act wisely, to end controversy by placating our own people, for our fate and fortunes are all embarked together, and, after all, we furnish the money.

The climax of the Spring fashion shows is now a thing of the past. But those fluffy pieces of finery are just beginning to worry Pa. Mother worried until last night. It did rain, just a little bit, but the early hours of the day were all that could have been asked for by the wearer of the most expensive bonnet.

The recently published account of the man in the east who, after having been blind for many years, recovered his sight by having some teeth extracted, would seem to prove at last the truth of that old saying about eye teeth. Only henceforth we will have to change our book of synonyms to make "cutting ones eye teeth" and "getting ones eyes open" come under the same heading.

DRAT THAT FLY

The open season of the house fly is here once more, and it behooves us to resume early and with renewed energy the campaign against this dangerous insect begun last year. Cleanliness is the most effective weapon in the war upon this carrier of disease, cleanliness in the home and the stable, in streets and alleys, above all, in places where foodstuffs are prepared for the market or placed on sale. Bakeshops, meat-shops and the kitchens of restaurants should be the concern of every citizen, not of the Board of Health alone. Fly hunting is repulsive; prevention in the proper places, ruthlessly enforced when necessary, will ultimately do away with its necessity.

No doubt the various public and voluntary bodies that last year undertook, directed and encouraged the war upon this disseminator of typhoid fever will take the field this season in ample time. The warnings issued by them early in 1911 and the methods suggested met with a gratifying prompt reply. The whole country was made fully aware of the danger that lurks in the sticky feet of these scavengers. A word in time should suffice for the season that is before us.

Children were enlisted for the cause last year in many ingenious ways, the Boy Scouts distinguishing themselves in more than one American city, not merely by fly killing, but by scouting out their breeding places with the persistence and ingenuity of their age and reporting them to the proper authorities. To them there is an element of sport in the rendering of this important public service. It is a sort of game in which they should be encouraged. But it is the women who are, after all, the true keepers of a nation's health. Their vital interest in it begins at the cradle and never ceases to grow. It is to them that the great movement of extermination and prevention is recommended once more.—New York Tribune.

SLEEPING PORCH CRAZE

Jack and Jill
Sleep out until
Their bed with snow all white is,
Poor Jack's nose
And ears are froze
And Jill has caught bronchitis.

Shivery ditty ditty
The family slept outside,
The crane struck dad—
It made us mad
To have to sleep outside!

Hush-a-by, Baby, on the storm,
What does it matter if Baby ain't warm?
When the fad's over, we'll all sleep inside,
And I hope of exposure my babe won't have died!

Luck Du-Ty
Has lost her sleep,
The rising moon it wakes her,
And there she lies
With open eyes
Till early sunshine wakes her

Move out my cot to the next vacant lot,
For this "Sleep-in-the-Open" I have got!
Mits on my fingers and socks on my toes,
But long before morning I'm perfectly froze!

There is a man in our town,
And he is Nobody's Fool,
All summer he slept out of doors,
Until it got quite cool;
But when he found his pillow wet
With snow and hail and rain,
He jumped out of his breezy cot
And slept indoors again!

ONE KANSAS RAILROAD

One of the oldest railroad men in point of service in Southeastern Kansas is A. H. Tanner, Santa Fe agent at Erie. At one time he was general manager of a railroad. Still, he considers his present position a better one than he had as general manager of the N. T. I. & M., officially known as the Nebraska, Topeka, Jola and Memphis Railroad. The road was not much longer than its name, extending only from Girard to Walnut. The rolling stock consisted of a wind-broken engine, a flatcar and a secondhand caboose.

The proposed road was to extend from Lincoln, Neb., to Memphis, Tenn., but Clark Bros., the builders, declined to build the road except where townships voted bonds for extension. Walnut and Crawford alone voted these bonds. The road was purchased by the Southern Kansas and was to be turned over to that road on January 1, 1884.

When Tanner arrived in Girard he found that the depot was located in the St. James, now the Huber, Hotel in a back room. The conductor was also the agent at Walnut, the baggage master freight agent, trainmaster, roadmaster and various other officials. The process of turning the road over to the representative of the Southern Kansas was simple; the new man simply took charge. Soon after he was installed into office as general manager the conductor came into the office with the day's receipts.

"How much do you want?" the conductor asked, digging the change out of his overalls. "I guess you can have half." Then the honest official, after he had divided the "pile," waited for an hour trying to make his reports tally with his "cash on hand," which had been turned over to the superintendent.

Presently the engine "hostler," who called himself the master mechanic, came in with the information that the engine was out of coal. As the road had been receiving its coal supply from the Port Scott & Memphis, Tanner accordingly sent a telegram to the Memphis headquarters asking for coal. The telegram was signed by "A. H. Tanner, Agent N. T. I. & M."

Immediately came the reply from Kansas City: "Who is A. H. Tanner, agent?" The new general manager was up a stump, until he was informed that the general manager always made the fuel requisitions. So he returned the message over the signature of "General Manager." He received the coal.

At that time A. J. Crawford, the present Santa Fe agent at Girard, was agent for the Frisco, which in those days ran only from Girard to Joplin. His office consisted of a cox-like building situated a half mile south of the present Frisco depot. After two weeks of serving as general manager of the N. T. I. & M., Tanner was sent to Erie to open the station there, and Crawford soon after was given the Girard station, which he retains to this day.—Kansas City Journal.

FIRST NIGHT PUZZLE

Until a few years ago the first performance of a new play in a first-class theater in New York was an event. Now a first night is merely an incident. With the multiplicity of theaters there has come a multiplicity of first performances on a single night, bringing with them increasing difficulties of choice on the part of public and critics alike. Last week three leading theaters gave first performances on the same evening. For next Monday night at least five first performances are announced, including the opening of a new theater. If managers are indifferent to one another's claims on a date, they might at least be a little sensitive to the convenience of the public. Of course, it is not expected that they will systematically consider the convenience of the critics who have not yet discovered how to be in five, or even in two, places at the same instant. If the managers cannot settle these little differences for themselves, a clearing house might be established by

or, for them, distributing first night dates among the numerous playhouses, and thus bringing about a solution of what has become a vexatious theatrical puzzle. The theaters themselves suffer most of all, for no new performance can now get adequate attention from a distracted public. The diffusion of the theater-goers' interest is harmful to all.

Three years ago there were twenty-four theaters of the class alluded to. This week there are thirty. Next week there will be thirty-eight. Next season there will be thirty-eight. The count does not include the leading stock, variety or one-week theaters, or it would bring the total to thirty-nine for three seasons ago, forty-seven for the present season and fifty-seven for next season. Considering, however, only the producing theaters, it is clear that something is necessary to change the present plague of first performances into the reasonable enjoyment of a premier.—New York Tribune.

20 YEARS AGO IN OAKLAND

C. P. Huntington was yesterday elected president of the Southern Pacific at the annual meeting, according to the announcement made in the offices here. J. C. Stubbs was elected third vice-president. C. F. Crocker of San Francisco was named first vice-president and N. T. Smith treasurer.

Several names have been mentioned for the position of commissioner of public works, but Mayor Chapman has not yet announced who will be appointed. He and ex-Mayor Davis are considering the question. The new commissioner, when named, will succeed J. West Martin.

The Juniors this afternoon defeated the Sophomores at the state university in a hard-fought gridiron contest. Bakewell, Brann and Hunt were the mainstays of the line of the 22 class, and Polty, Porter and Benson were stars of the 24's.

Court Athens, the new lodge of Foresters, was instituted last night in Schimpfennig's Hall, East Oakland. High Chief Ranger H. Beaver of San Francisco

was the principal speaker at the ceremonies, which officially announced the birth of the new lodge. A large number of visitors from other lodges about the bay were present at the affair.

The nineteenth annual assembly of the Women's Occidental Board of Foreign Missions is now in session at the First Presbyterian Church of this city. The meeting was opened last night by Rev. I. M. Condit and Rev. F. R. Coyle addressed the members of the organization. The German Evangelist Lutheran Zion's congregation has petitioned the Superior Court for permission to sell their property at the northeast corner of Clay and Thirteenth streets. They plan to utilize another site for their church, the present one being too valuable for the purpose.

The football games of the "Four A" League are drawing to a close, and the contest has narrowed to one between the Oakland High School and the Hopkins Academy teams.

NO INDIGESTION OR SICK STOMACH

Gas, Heartburn, Dyspepsia and
All Misery in Stomach
Vanishes.

Take your sour out-of-order stomach—
or maybe you call it Indigestion, Dyspep-
sia, Gastritis or Catarrh of Stomach, it
doesn't matter—take your stomach trouble
right with you to your Pharmacist
and ask him to open a 50-cent case of
Pape's Diaprepain and let you eat one 25-
grain Triangles and see if within five
minutes there is left any trace of your
former misery.

The correct name for your trouble is
Food Fermentation—food souring. The
digestive organs become weak, there is
lack of gastric juice, your food is only
half digested, and you become affected
with loss of appetite, pressure and full-
ness after eating, vomiting, nausea,
heartburn, griping in bowels, tenderness
in the pit of stomach, bad taste in mouth,
constipation, pain in limbs, sleeplessness,
belching of gas, biliousness, sick head-
ache, nervousness, dizziness or many
other similar symptoms.

If your appetite is feeble and nothing
tempts you, or you belch gas, or if you
feel bloated after eating, or your food
lies like a lump of lead on your stomach,
it can make up your mind that at the
bottom of all this there is but one cause
—fermentation of undigested food.

Prove to yourself in five minutes that
your stomach is as good as new; that
there is nothing really wrong. Stop this
fermentation and begin eating what you

DRILL TEAMS OF 'BEST PEOPLE' TO HOLD CONTEST

COLONEL J. K. RITTER.

Tomorrow evening there will be a com-
petitive drill between the White Oaks,
the crack Oakland Elks prize drill team
and the Elks Drill Team of the San
Francisco lodge, at Piedmont pavilion at
Twenty-fourth street and Oakland ave-
nue.

This competitive drill is one of a series
which will be held for the benefit of per-
fecting the two teams in their endeavor
to win the prize at the Portland Con-
vention of Elks to be held next July. It
was through the guidance of Colonel J. K.
Ritter that the Oakland "White Oaks"
were successful at the Los Angeles con-
vention two years ago and it is thought
now under the same guidance, experience
and careful training that the same team
will have no trouble in walking off with
the honors.

This affair will be extremely interest-
ing, as the Ashmores Temple Patrol of
the Oakland Shriners, as well as the Can-
ton "Oakland," No. 11, Esoteric Military
L. O. O. F., have been invited to attend
and will appear in full uniform and par-
ticipate in the exhibition of the evening.

SUPERVISION OVER UNITS IS URGED

Herbert Knox Smith Says Dis-
solution Brings About
Problem.

WASHINGTON, April 8.—In his an-
nual report Commissioner of Corporations
Herbert Knox Smith says the dissolution
of the Standard Oil and American Tobac-
co companies makes it plain that the
Federal government must have a perma-
nent administrative office through
which to supervise inter-state corporate
business.

"There is little dispute," says Smith,
"as to the objects of our corporate policy
which is to maintain a business machinery of
high efficiency serving the best interests of
the citizen and returning ample reward
to the ability and industry of those who
use that machinery fairly. But the
means to this end are now in debate.

Two great restraints may be imposed
upon business. One is the "automatic"
regulation of the Federal government, the
other is the "voluntary" regulation of
governmental intervention. It is indis-
putable that under some conditions even
fair competition may result in combina-
tion. The further question is then raised,
How far is it desirable to enforce com-
petition by dissolving such combinations?
That question, however, need not be dis-
cussed here.

BROAD POWERS REQUIRED.
"Whatever shall be our ultimate policy,
however, whether of preserving competi-
tion, of enforcing competition, or of di-
rect governmental regulation of business
operations; or whether, as is perhaps
most likely, our policy will be a combina-
tion of these various principles in any
event such a permanent administrative
system is a necessary part of it. That
system should have power of investiga-
tion, taking continuous cognizance
of the operations of large industrial cor-
porations. Such administration is neces-
sary to the enforcement of the policies
described, while it does not exclude
the others. By publicity and supervision
it will prevent competition and provide
equal opportunity; by an expert knowl-
edge of current business conditions it will
display the working of competition, and
the cases, if any, where this fails to be
beneficial. It will always be in a posi-
tion to furnish, through its permanent
force of trained specialists, the infor-
mation needed for legislation for regu-
lation. It will also have the knowledge and
data that may be required properly to
enforce competition and to carry out the
intent of any decree of dissolution en-
acted under the anti-trust law.

UNITS NEED WATCHING.
"A convincing object lesson on the need
of such administrative system is now
before us. The American tobacco com-
pany and the Standard Oil company hav-
ing been disintegrated, the resultant units
are now starting on a new career. These
disintegrations have been accomplished
only after long litigation and at much ex-
pense. The purpose was to prevent com-
petition by a broad reform in economic
conditions. And yet the country has no
effective means of ascertaining how the
desired reform will really be carried out.
No one can foresee the future of these
new units in the two great industries.
It will be purely an economic and finan-
cial process. No judicial machinery is
adapted to handle this novel problem. In-
deed, the circuit court expressly refused
the suggestion of the attorney general
that the tobacco case be kept open for
three or more years for such purpose of
supervision.

Public interest requires that these two
groups of companies and any others in
like circumstances should be at once
subjected to administrative supervision in-
spection by a Federal office organized
on lines similar to those suggested above.
In these two cases, which are but cur-
rent examples of a general principle, both
public and private rights are involved.
The public has no means of following
the development of competition therein
through succeeding years, nor have the
security holders in those corporations—
certainly, at least, those not "on the
inside"—the means of judging the value
of their holdings under the novel condi-
tions now operative."

A tea given this afternoon at the home of Mrs. Sargent, a well known society girl of Alameda, daughter of Mr. and Mrs. F. G. Sargent, announced her engagement to Charles Livingston Ackor of New York.

The news was told at a delightful tea given today at the family home of the Sargents on San Antonio avenue, which for many years has been the scene of much open hearted hospitality.

The wedding will take place the latter part of August, and Ackor will take his bride to New York, where their future home will be.

Miss Sargent, a blonde with decided charm of personality and is much beloved by a large circle of friends in Alameda, and this city.

The living room of the Sargent home was decorated in a profusion of spring flowers, yellow being the predominating color, while the dining room was in shades of red, carnations being massed effectively, together with greens of all kinds.

Assisting Miss Sargent and Miss Harriet Sargent, who was joint hostess with her sister, were Miss Elida Van Sicken, Mrs. George Jensen, Mrs. Percy Wood, Mrs. Ernest Porter, Mrs. W. J. Blackman, Mrs. Joseph A. Jay, Mrs. Harry Clapp, Miss Isabel O'Connor, Miss Laureline Jordan, Miss Charlotte Brush, Miss Rosevelt Henderson.

A coterie of young girls were at the tea table. These were Miss Anna and Miss Amy Walden, Miss Marion Pomeroy and Miss Helen Sargent.

Miss Sale is well known in musical circles and has sung much in public.

Miss Edith Snow and Ralph Newcomb will be married in Pilgrim Congregational church, this city, before several hundred guests.

Miss Snow is the daughter of Mr. and Mrs. W. E. Snow of this city, will wear a white satin wedding gown trimmed in pearls and will wear the long wedding veil attached to a becoming Juliet cap. She will carry a shower bouquet of lilies of the valley and bride roses.

Miss Snow will be her sister's maid of honor, and will be crowned in spangled chiffon over apricot colored tulle. She will also wear a Juliet cap and will carry wild Easter lilies. Rev. Edward Lawson will read the marriage service at 8:30, after which there will be a reception at the church, and a wedding supper will be served at the bride's home.

WOMEN IN THE NEWS

BEAUTY 'MUSHES' 80 MILES TO MARRY

Has Parental Blessing, But No Chaperone on Long Journey.

TACOMA, April 8.—Unchaperoned, but with the parental blessings, Marguerite Antoinette, heiress and belle of all Alaska, mushed eighty miles by dog team, last night with John Golden, her lover, whom she married upon reaching Georgetown at the end of a three-day journey. Golden is manager of the Northern Commercial posts at Georgetown, and his bride is the daughter of Gordon C. Bettles, a wealthy pioneer trader of the Yukon and Kuskokwim valleys, living at Gordon's place, near Russian Mission, Kuskokwim. Golden waited three weeks at his bride's home for the return to the mission of Rev. Father Bereskin, who was absent at the mission on the Yukon. Finally Golden was compelled to return to his posts. A council was held between Golden, Mrs. Bettles and her parents, and the latter consented to the bride's journey to Georgetown, where the lovers were married on their arrival. The happy couple combined a wedding and business journey by dog team to Edmonton, being royally welcomed everywhere.

Not for Eleanor

HILLSBORO, April 8.—Did Miss Eleanor Sears blossom out on Easter Sunday with a panther skirt, a picture hat and other adornment so dear to the hearts of those of her sex?

She did not.

Frills and furbelows are not for the Boston heiress. Nothing so effeminate would do for her.

She blossomed, but it was in her own way.

The Easter costume of Miss Sears consisted of a brand-new pair of khaki riding breeches, new riding boots, a checkered coat, soft shirt, a bright cerise necktie and a mouse-colored fedora hat. It was a mannish outfit, and it created considerable sensation.

The polo game between the Reds and the Whites resulted in a tie of 6 to 6. An extra period was played, but it failed to break the tie.

Bonnets Are Small

ATLANTIC CITY, N. J., April 8.—A hundred thousand visitors thronged in the board walk Easter parade yesterday. Hostlers and bonnets vied for popular attention when the frisky west winds and showers interrupted the parade.

Many prominent families of this city will be represented at the wedding and reception which will follow.

Captures Runaways

LOS ANGELES, April 8.—A family jalled, the other half at Santa Barbara yesterday after the first half had chased the last half over 3000 miles and spent three months and \$2000 in doing so.

The first half is composed of Jacob Sain, a wealthy retired merchant of Philadelphia, and his son George. The last half consists of Mrs. Sain and her six-year-old son Michael, whom she took when it is charged, she eloped with James Bellum, an ex-employee of Sain's.

The triple disappearance occurred December 26, 1911, and Sain and his other son have been following them ever since.

The trio were traced to this city, but took to the hills and hid in Santa Ana, where Bellum and Mrs. Sain joined a minstrel troupe.

The aggregation then went to Santa Barbara. Probation Officer Wynne followed them there and arrested the two on the street and the home run of Walker was the feature of the game. The game ended with a score of 11 to 8.

Following is the lineup of the two teams:

Bantams—Bullock c, Bertoli p, Crowley lb, Anderson 2b, Woods 3b, Negro ss, Baug and Crowley rf, Bertoli cf, Gould substitute.

Questions—Butts c, Lower p, Johnston lb, Larson 2b, Baker 3b, Baker, Walker ss, Geppard rf, Blower cf, Stephens lf.

Julia Pons when she appeared on the stage of the Estera Theater in the comic opera "Le Public du Amour" (Republic of Love). They are valued at \$5000 and are said to be a gift from King Alfonso, whose admiration of the fascinating actress is a matter of common knowledge.

These jewels are the envy and despair of the job who nightly throng the Estera Theater.

Julia caused a fresh sensation by appearing in an automobile precisely like the king's latest touring car. It is currently reported to be a gift from the royal garage.

PANDORA

By LILLIAN RUSSELL

(Copyright, 1912, Lillian Russell.)

THE poet Hesiod declared Pandora the first mortal woman that ever lived. She was made from clay by Vulcan, at the request of Jupiter, who wished to punish the impiety and artifice of Prometheus by giving him a beautiful wife.

When this lovely woman of clay had been made by the artist and received life all of the gods vied in making her presents. Venus endowed her with beauty and the art of pleasing. The Graces gave her the power of captivating. Apollo taught her how to sing. Mercury instructed her in eloquence and Minerva gave her the richest and most splendid ornaments.

From all of these valuable presents which she had received from the gods the woman was called Pandora, which intimates that she had received every necessary gift.

Jupiter after this gave her a beautiful box, which she was ordered to present to the man she married, and Mercury conducted her to Prometheus. The artful mortal was sensible of the deceit, and as the rest of the gods, since he had stolen fire away from the sun to animate his man of clay, he sent away Pandora without suffering himself to be captivated with her charms.

His brother, Epimetheus, was not possessed with the same prudence, however. He married Pandora, the beautiful, and when curiosity compelled him to open the gift box of the gods he found her dowerly to contain a multitude of evils and distempers which dispersed themselves all over the world and which from that fatal moment have never ceased to afflict the human race.

Hope was the only gift that remained at the bottom of the box. And it was she alone that had the wonderful power of easing the labors of man and of rendering his troubles and sorrows less painful in life.

Hygin writes of Pandora, as a daughter of Erechtheus, king of Athens. She was a sister of Protagora, who sacrificed herself at the beginning of the Boetian war.

We have seen pictures depicting Pandora with a golden box full of jewels. Perhaps the lesson to be learned from the first mortal woman is the evil of curiosity.

Had Epimetheus been satisfied with the beautiful woman Pandora, without the dowerly she brought to him, the world would never have known evils and distempers.

Remember: The gods were kind enough to endow Pandora with the one greatest cure, hope.

DOLLY.—To my mind there is always some latent cause for dark circles under the eyes. Some times it is hereditary, but dark lines are usually caused from anaemia, lack of sleep, prolonged study, or dissipation of any description. The external treatment is sometimes effective temporarily, but cannot be permanent while the cause exists. Bathe the eyes frequently in cold water, using friction. Massage with a skin food is sometimes effective. If you care for them send me an addressed stamped envelope and I shall send you the formula for an eye wash and complete set of exercises which will benefit you. You cannot bleach it, and there is danger of getting some of the bleach into the eye. They contain acid, and this is dangerous to use. I should advise you to take a three-mile walk every day, and if you

can a five-mile walk is better. In the morning open your window and take at least five minutes of deep breathing. This will also help you. If you care for them I shall also send you complete instructions for deep breathing and formula for a torpid liver.

BALDY.—Perhaps your scalp has become tight and will not move easily. If this is the case, that is the reason for your hair falling. Scalp massage is the secret of keeping the hair healthy. It is easily done and not a great tax on either time or patience. If you will send me an addressed stamped envelope I shall be happy to send you complete instructions for scalp massage and also the formula for an excellent hair tonic.

R. H.—I shall be glad to send you the formula for an excellent eye cream and also the green soap treatment and a salve for pimples.

DOROTHY.—I don't think a strict diet is necessary in your case. However, if your face is rather oily I should advise you to eat many greasy foods or many sweets. Dip your fingers in alcohol. This will dry the oil in your nails and make them thicker. If you care for them send me an addressed stamped envelope and I shall be happy to send you the formula for a skin food, and also one for a flabby neck.

R. C.—Plain yellow vaseline is good for increasing the growth of the lashes and brows. Melt the vaseline and apply to the roots of the lashes, but be exceedingly careful not to get any of it into the eyes, as oil of any kind irritates them. Send me an addressed stamped envelope and I shall send you a formula for a French tonic for eyelashes and brows.

BABE.—You will get better results if you do use fresh buttermilk each time. You must not expect results too quickly.

These jewels are the envy and despair of the job who nightly throng the Estera Theater.

Julia caused a fresh sensation by appearing in an automobile precisely like the king's latest touring car. It is currently reported to be a gift from the royal garage.

AVIATION CIRCUIT OF 1810 MILES PLANNED

NEW YORK, April 8.—A great American aviation circuit is being organized by the Aero Club of Illinois, Washington, Milwaukee, Kansas City, St. Louis, Indianapolis and Cincinnati.

The distance is 1810 miles, and the starting and finishing point will be Chicago. It is planned to have a race in August, preceding the international cup race, the date of which is September 8. This, it was thought, would induce foreign contestants, who are coming for the championship event, to take part in both races.

The route proposed is Chicago, Milwaukee, Cedar Rapids, Des Moines, Omaha, St. Joseph, Kansas, Charleston, Indianapolis, Cincinnati, Columbus, Cleveland, Toledo, Detroit and Chicago.

Already various cities have pledged considerable money toward the prize fund, which will be \$100,000, including a grand prize of \$25,000, a second prize of \$10,000 and a third prize of \$5,000.

COMMERCIAL MEN PUBLISHER PLANS HOLD MEMORIAL ACTORS' PARADISE

Impressive Services Mark Annual Affair Across the Bay.

SAN FRANCISCO, April 8.—Golden Gate Council, No. 40, United Commercial Travelers of America, held its annual memorial services in fraternal remembrance of departed members yesterday in Benevolence Hall, 21st and 12th buildings, attended by the members of Golden Gate, San Francisco and Oakland councils, their families and friends.

Bonnets Are Small

ATLANTIC CITY, N. J., April 8.—A hundred thousand visitors thronged in the board walk Easter parade yesterday. Hostlers and bonnets vied for popular attention when the frisky west winds and showers interrupted the parade.

Many prominent families of this city will be represented at the wedding and reception which will follow.

The attractive bride is the daughter of Mr. and Mrs. Charles Gehardt, well known in social circles in San Francisco. Young Moffitt's family is a pioneer one here and the home here has been a social center for many years.

TO GO ABROAD.

Dr. E. N. Ewer will leave in June to join Mrs. Ewer in Germany, where he will spend several months, dividing his time between study and sightseeing.

GIVEN HOUSEWARMING.

Mr. and Mrs. H. M. Pierce were given a housewarming in their new home, 83 Woodward avenue, in San Francisco, recently. The couple were married in Santa Rosa five weeks ago. Mrs. Pierce is the daughter of Mr. and Mrs. A. Garfield of Fruitvale. Pierce is the son of Mr. and Mrs. Charles Pierce of Alameda.

Among those present at the housewarming were Mr. and Mrs. H. M. Laurence, and Mrs. James Walker,

Wage Increase of Twelve
Millions Fails to Relieve
Situation at Mills.

BOSTON, April 8.—Despite the wave of wage increases which in the next 12 months will swell by more than \$12,000,000 the pay of thousands of textile workers in New England, dissatisfaction is manifest still among operatives in a number of places.

Strikes are now in effect or threatened during the week beginning today unless certain demands are granted at nearly a dozen textile points. Except in Lowell, where 15,000 operatives are out of work, the number of operatives involved is comparatively small.

Many observers believe that the strike and lockout in Lowell will end this week through the expected action of the manufacturers in granting an increase of 10 per cent in place of the 7 and 8 per cent already announced.

I. W. W. IS ACTIVE.

The settlement of the Lowell situation however, apparently will not mean the end of activity in New England by the Industrial Workers of the World, the organization which has assumed responsibility both for the great Lawrence strike and that at Lowell.

The leaders are now predicting strikes in the Manchester, N. H. cotton mills and in the linen industry in Worcester. In Fall River, where a general increase of 10 per cent to the textile operatives prevented a strike of 30,000 persons, the 300 firemen have voted to go on strike today unless the 100 cotton mills involved grant a flat wage of twenty-two cents an hour in place of the present sliding scale of from 12 to 20 cents.

The month-old strike at the Lancaster mills in Clinton, where 1300 persons are involved, now hinges only on the question of returning to work.

CARPETMAKERS INVOLVED.

A branch of the textile industry, but little affected up to now by the agitation for higher wages—carpet making—is involved in a strike today of 500 employees of the Roxbury Carpet Company.

The workers there sent to the owners today a demand for a general increase of 10 per cent and for the reinstatement of three women employees recently discharged. Prospective conditions, except in the fine goods branch, have displaced the unfavorable factors in the textile industry of New England, which for three years or more have compelled a drastic curtailment of the cloth and yarn output.

WESTERN COAL NOT

Excessive Amount of Ashes
and Soot Said to Be Re-
sult of Use.

WASHINGTON, April 8.—Western coal has been found unsuitable for the use of the navy, except at shore plants and on tugs and other vessels which would not be expected to take part in battle. Comparative tests held aboard the cruisers West Virginia, Colorado and Maryland have convinced naval officers that it would be unwise to give preference to western coal, which, it is said, produces excessive amounts of ashes and soot, tending to clog tubes and grates and having an adverse effect on boilers.

The naval department is keenly interested in finding some coal in the western states which would burn as well as the eastern coal and to this end further tests of other coals will be held.

pany struck today when their demands for a 10 per cent increase in wages was denied. Most of the strikers are women and are employed in the weaving departments of the mills. About 800 persons work in the mill and the strikers were confident that most of the operatives would join them before the end of the day.

Flowers and Spring Bonnets Add to Attractive-
ness of Easter Services in Oakland

LAD in their Easter bonnets and their latest spring garments, thousands of parishioners attended services yesterday in the local churches, where the story of the Resurrection was told in musical numbers and in sermons.

The choral music, which had been especially arranged for the occasion, added to the solemnity of the festival, which closed the penitential season. Vested chorists chanted to the strains of instrumental music, which was awe inspiring.

St. Joseph's, symbolizing purity, formed the artistic decorations in the sanctuaries, which were fragrant with the odor of those flowers. The floral display in the houses of worship was elaborate. The florists had been busy during the past week cutting their choice flowers for the churches, which were converted into flower gardens for the celebration.

In memory of friends who had died, members of the First Congregational Church of this city contributed the flowers for that parish. The deceased for whom the flowers were given were as follows: S. T. Alexander, Mrs. M. K. Blake, Mrs. Duane Ballard, Edmund Brown, F. M. Bonner, Mrs. A. B. Collier, Dr. R. E. Cole, Henry Putnam Currier, Mrs. J. T. Dille, Mrs. Emily S. At the Sunday school session Rev. Herbert A. Johnson told an original Easter story which he called "The Wonderful Lily of Lazor." He founded his wonderful tale upon some incidents in the New Testament, and it was listened to with great interest.

The "Messiah," parts two and three, were sung at the evening service.

MASSSES AT MANY CHURCHES.

Services were held in St. Francis de Sales church, Hobart and Grove streets, where hundreds of men, women and children were in attendance. At the conclusion of the high mass was celebrated with Rev. William Cantwell as celebrant. Rev. Father J. P. Keane and Father Baschab assisted as deacon and sub-deacon. Rev. Father Keane preached the sermon entitled, "The Resurrection." Haydn's second mass was sung in its entirety by a choir led by Miss Elizabeth McNally, organist and director. The soloists were Mrs. Irene Le Noir Schütz, Mrs. Mollie Chase, L. W. Castwell, Daniel Lawrence and Wallace Marwin.

In East Oakland, Rev. Philip M. Prescott of Washington, D. C., presided at the services and delivered an Easter sermon. A special festival musical service was given under the direction of B. Walker Bours.

Evening service and a sermon followed the administration of the sacrament of baptism at St. Peter's chapel, Shafter street, near College avenue, this afternoon. The choral eucharist, singing of hymns and a sermon by Rev. Edgar Gee, rector of St. John's Episcopal church constituted the chief order of devotions at that church yesterday.

Morning and evening services were observed at Trinity Episcopal church, 14th and Broadway, where the Rev. Clinton Mason, the rector. The vested choir was under the direction of C. E. Church, and during the course of the exercises in the evening a chorus of 50 voices rendered an elaborate program.

The services at St. Paul's Episcopal church which commenced at 7 o'clock continued throughout the morning. At the initial service holy communion was celebrated and was followed by a service of the Word. The Rev. Father Keane, who was assisted by Rev. Father Baschab, delivered a sermon on the text, "The Resurrection." The service was followed by a service of the Word. The Rev. Father Keane, who was assisted by Rev. St. Mary's church at Seventh and Grove streets was the scene of special Easter day services. The Rev. Father Keane, who was assisted by Rev. Father Baschab, delivered a sermon on the text, "The Resurrection." The service was followed by a service of the Word.

St. Anthony's church in East Oakland presented a scene of unusual activity during the day. Five masses were sung, including a solemn high mass at 11 o'clock being the concluding service of the day. Haydn's second mass was sung under the leadership of Professor of Music of the Oakland Conservatory of Music. The sermon was delivered by Rev. Father Francis Harvey, professor of languages at St. Patrick's seminary, Menlo Park, who dwelt on the resurrection in a masterly fashion. Devotions in the evening commencing at 7 o'clock consisted of a recitation in which all the children of the parish took part, the answering of queries by Rev. Father E. McGrattan and the benediction. Leo's Catholic church at Ridgeway and Piedmont avenue, the newest Catholic church in the archdiocese, which was recently dedicated by Archbishop Riordan, consisted of three masses, with a solemn high mass at 10 o'clock as the final service of the day. Rev. Owen Lacey, the pastor, officiated as celebrant at this mass, and also delivered an impressive sermon.

Sacred Heart church, Fourth and Grove streets, celebrated its principal service of the day at 10:30 o'clock. Father Martin Scanlon was celebrant, while Elizabeth McNally, organist and director, assisted. The service was also delivered by Father George Quinn, deacon, and the Rev. J. B. McNally, the pastor, sub-deacon. Under the direction of Miss Lily Treacy, a special program of sacred music was rendered.

PIONEER OAKLAND
WOMAN IS DEAD

Effects of Recent Accident
and Infirmities of Age
Are Fatal.

The effects of a recent accident, coupled with the infirmities of age, proved fatal Saturday night to Dr. Harriet Nevill Van Kirk, a well-known Oakland club woman, who passed away at the Naeuhelm Sanitarium, at the age of 88 years.

Dr. Van Kirk was a prominent member of the Ebell Club, in which she has been active for the past twenty years, and was prominent, up to the time of her illness, in civic work and social activities.

Dr. Van Kirk was born at Mount Hope, Orange county, New York, July 24, 1824, and came to this Coast about 28 years ago. She was one of the pioneer women physicians of New York, and during her later residence in this city occupied a prominent position among the medical profession. She was a pioneer member of the First Presbyterian Church, and served as a deaconess. Her pallbearers at the funeral tomorrow afternoon will be chosen from among the church officers.

The deceased is survived by a grandson, Pierson Monroe Van Kirk of Detroit, Mich., and a niece, Mrs. W. J. Bain of Portland, these two being her only surviving relatives. The funeral will take place tomorrow afternoon at 2 o'clock in the chapel of the First Presbyterian Church.

La Follette Sends Statement
to Rudolph Spreckels, An-
swering Charges.

Is Reply to Document Alleged
to Be in Use by Governor
Johnson.

LINCOLN, Neb., April 8.—Immediately following Senator La Follette's departure from Lincoln today for the third day of his campaign tour in Nebraska, a statement prepared by the senator Sunday night was given out by his secretary, John Hannon, making public facts in regard to the "flopping" of Gifford Pinchot, Medill McCormick, Governor Johnson of California and others from La Follette to Roosevelt.

The statement is in the form of a telegram to Rudolph Spreckels, of California, the millionaire reformer, who is leading La Follette's fight in that state. It is intended to meet stories circulated there by Roosevelt to discredit the Badger senator's candidacy for president.

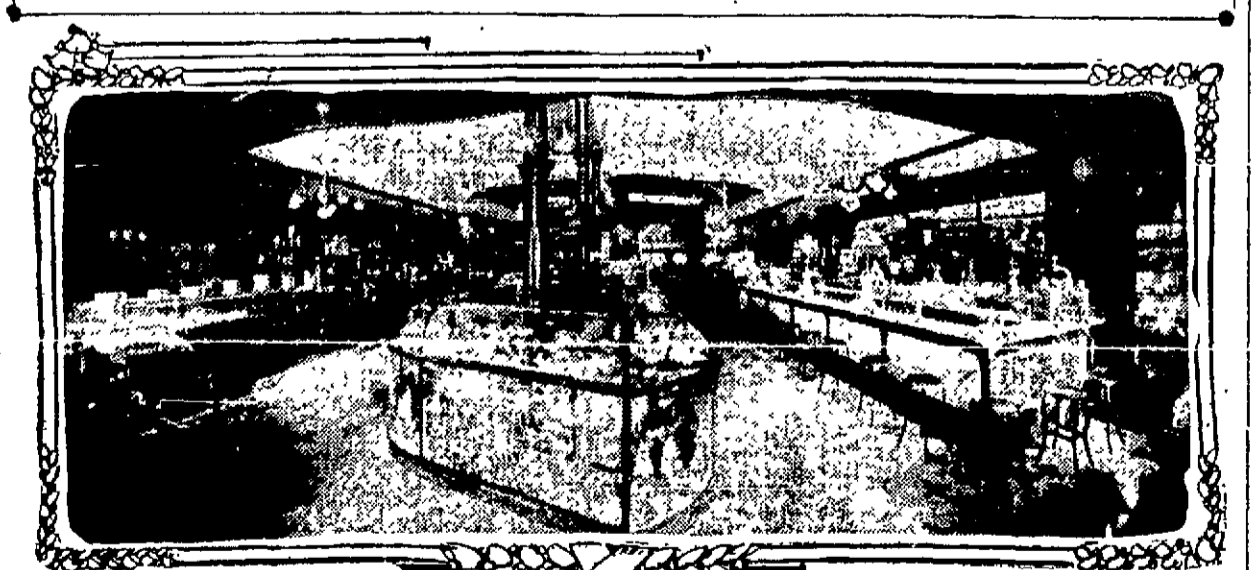

The statement was called forth by a telegram from Spreckels, conveying the information that Governor Johnson was using a purported telegram in which Pinchot had been instructed to throw his support to Roosevelt. Pinchot is said to be seeking to fasten the responsibility for his change on Walter S. Houser, La Follette's campaign manager, asserting that Houser had consented to the withdrawal of support from the Wisconsin man to Roosevelt.

RELIEF SOCIETY
HONORS MRS. KAHN

Oakland Philanthropist Elect-
ed President by Daugh-
ters of Israel.

Mrs. Cordelia Kahn, a philanthropist of this city and widow of the late Solomon Kahn of Kahn Brothers, has been elected president of the Daughters of Israel Relief Society, at the last meeting of the organization the president-elect occupied the chair.

She has been congratulated by the members of the society, who have pledged their support and will assist her in carrying out plans for future work. No changes have as yet been recommended. The splendid work accomplished by the past president will be continued. During the last fourteen years Mrs. Kahn has directed the affairs of that body.

MRS. LEHNHARDT HAS ASSUMED
MANAGEMENT OF CANDY BUSINESS

Interior of the beautiful Lehnhardt Establishment on Broadway, Oakland, said to be one of the most perfectly organized concerns of the kind in California. Mrs. Emil Lehnhardt has taken personal charge of the entire business and is planning many improvements.

At the time of the death of Emil Lehnhardt considerable speculation was in the air as to whom would fall the management of the business created by the deceased candy manufacturer. This question has been answered by the announcement that Mrs. Lehnhardt, the sole owner of the business, has taken active management of all affairs connected with the establishment and will continue to run the business upon the same principles that are so responsible for its past success.

Mrs. Lehnhardt, whose practical knowledge of every detail of the confectionery business is well known among those with whom she has been associated, is devoting virtually all of her time to personally managing the affairs of the store. During Mr. Lehn-

hardt's life he made a practice of consulting with his wife upon all matters, and most of the ideas that have helped to make the store a success were worked out by joint consultation. The result is but natural, therefore, that Mrs. Lehnhardt, by undivided effort, and no difficulty in mastering the various details of management, both in the store and factory.

"I am going to carry on this business exactly as my husband would have handled it had he lived," said Mrs. Lehnhardt this morning, "and will keep it abreast with the growth of Oakland. I am devoting my personal time and attention to the management of the store and factory, and am ready to invest my capital in improvements of any kind or character that are, in my opinion, for the good of the business. I know the candy business

thoroughly, and propose to make Lehnhardt's more popular than ever. I have just finished and refitted the interior of our salesrooms and refreshment parlors and am already planning radical improvements in factory facilities. I believe in keeping ahead of the times, and if personal attention, ample capital and a thorough knowledge of the business are requisite to success, I will give Oakland an establishment we will be proud of."

Emil Lehnhardt, by undivided effort, built up one of the largest retail confectionery businesses upon the coast, and the knowledge that the establishment is to continue along the same line, under the direction of one who is so intimately acquainted with the methods that made the business so successful, is most gratifying to those interested in the future of the store.

proofs of which have been seen by members of the recall committee. In the book Dr. Mackie described the progressive educational methods of the United States and Europe. He finds two in the country which are worthy of perpetuation. These two are in Berkeley and in Boston. The Berkeley system, and the intermediate high school plan, are dealt with by Professor Mackie in a single chapter. This begins:

Three recall meetings are scheduled for this evening, the most important of which will be the organization meeting for women at the Hotel Statueck here. Mrs. Barry, Mrs. Ma. Cheney, Miss Blanche Morse and H. M. Cook will be the speakers. Dr. Romilda Paroni, B. J. Bither, Professor Lincoln Hutchinson and Samuel C. Haight will address the meeting at 3044 Telegraph avenue, and L. H. Lewars, W. H. Fayson and Mrs. Barry a gathering at 2236 Grove street.

Let us consider briefly a school system of the West, which is located at Berkeley, California. Superintendent Bunker has instituted a progressive policy educational reorganization which has not been merely formulated in theory but reduced to actual practice with striking success.

Professor Mackie then proceeds with a detailed description of the Berkeley plan. The first part of the system, in vogue was featured by the Bureau of Municipal Research on the Russell Sage foundation at New York, which sent to every superintendent of schools and head of departments in the larger cities of the United States, copies of Bunker's own report on the plan. The Bureau of municipal research commented:

"We do not know when anything has seemed to us so conclusive and far-reaching as this break from convention's line."

President Nicholas Murray Butler of Columbia university said:

"In our judgment, Mr. Bunker is building on a sound foundation. His plan of reorganization will increase the flexibility and adaptability of the school system to pupils of varying needs and conditions."

Dr. A. E. Winship, editor of the Journal of Education of Boston, wrote:

"Berkeley has always meant the state university as much as has Madison or Ann Arbor, and it meant nothing more until Superintendent Frank F. Bunker became superintendent, and he has really been able to make it signify several things entirely apart from the university. He has done this by making Berkeley stand for the most pronounced progress along some public school lines of any city in the United States, and that is no slight achievement in these days."

SECOND CEREMONY FIRE IN THEATER FOLLOWS WEDDING QUICKLY PUT OUT

ALAMEDA, April 8.—Following their marriage at San Jose on March 25, Lieutenant Gunn and Bride Repeat Marriage Vows in Catholic Church.

Attendants Assure Audience There Is No Danger and Panic Is Averted.

Panic in the Lyric Theater, 1216 Broadway, was narrowly averted yesterday afternoon when a small fire occurred in the motion picture operating room by attendants at the theater assuring the crowd that no danger was threatened. The fire was extinguished before the fire department, which had been summoned immediately, had arrived.

The fire was caused by a film lighting. A puff of smoke followed the flash in the theater, and there was a cry of fire. The crowd started a small stampede. While the operator was closing the safety shutters and putting out the blaze at once, the theater calmed the crowd, and the show resumed.

A small fire occurred at Idora Park yesterday afternoon, but this was not of sufficient magnitude to disturb the crowds of merry-makers. The fire was put out before the arrival of the fire department, which had been hastily summoned.

ORGANIZATION OF NEW CHURCH POSTPONED

ALAMEDA, April 8.—The Rev. J. R. Perkins did not organize his new People's church last night, as originally planned. The organization being postponed until next Sunday night. Perkins preached last night on "My Ideal Church," outlining in his sermon the principles which he wished to see incorporated in the new church society. He explained that he hoped for a church fellowship on a basis other than those lightly bound with orthodox ties, a fellowship in which any and all believers in the Christian faith could participate without hindrance or bar because of offending church laws.

MATRIMONIAL AD. FINDS BRIDE-TO-BE

MANITOWOC, Wis., April 8.—Answering an advertisement which she saw in a Chicago matrimonial paper, Miss Louise Wilkie, a young lady residing at Liberty, this county, will become a bride in a few days, providing probate releases her from guardianship under which she has been ever since the death of her husband's mother. Miss Wilkie is a charming young lady. Her husband-to-be is a young town farmer. Miss Wilkie answered the advertisement in the paper, but she had no idea that matters would progress so rapidly as they have. A few days after she had dispatched her letter she received one in return from the young man, in which he stated that he intended visiting her there. He kept his word. The only barrier to their marriage is the fact that she is under guardianship, but it is thought by the happy young people that this difficulty can soon be surmounted.

INSTITUTE TO ENTERTAIN AT INFORMAL BALL

MISS MAY E. NOLAN.

BERKELEY, April 8.—An informal dancing party which promises to be largely attended is being planned by the young women of Berkeley Council No. 55, Young Ladies' Institute, as the opening of the post-Lenten season. It will be given the evening of April 19 at Wilkins' hall, and a number of novel features are projected.

The music will be under the direction of Professor George Sanders of Oakland. The following committee of the institute is in charge: Miss May E. Nolan, chairman, and the Misses Ethel Farrell, Isabella McCulloch, Marguerite Zelt and Addie Smith.

MASQUE'S AUTHOR CHERISHES REWARD Wreath of Gold Placed on Brow of Miss Anne Rearden.

UNIVERSITY OF CALIFORNIA, April 8.—Miss Anne Rearden, author of "The Parthenia," the masque that was presented before 3000 people on the campus Saturday afternoon, cherishes today almost more of her other possessions, a wreath of oak and eucalyptus leaves of pure gold that was set upon her brow after the masque, by Miss Lucy Sprague, dean of women. It was to honor Miss Rearden for a composition that has received more praise from the faculty and public than most other undergraduate works the university ever produced.

Rearden dedicated her masque to Miss Sprague, upon whose suggestion the contest was held in which "The Parthenia" triumphed from among 22 offerings. The crown worn by Miss Sprague acknowledged the courtesy, was resigned by Porter Garnet and placed on Miss Rearden's brow by Miss Sprague with her own hands. Across the front it bore in Greek the following inscription: "The graces, searching for a precinct that would never fail, found it in the soul of this maiden."

The impressive masque was progressing sedately and stately to its climax, the soft music of Edward McDowell filling the oak grove as it lifted through Chorus Paul Staudt's artistic fingers. Suddenly the strains of "Alexander's Ragtime Band" hurried themselves upon the sylvan stage. There was a momentary painful holding of breath by the audience, anger filled the eyes of the chorus and even the dancers grew uneasy in their steps.

It was evidently a band that was playing the raucous rag. That part of the audience—the major part—while it knew naught of the presence of invading music, blamed it all upon the local orchestra. A delegation of incensed committee women quit the scene of the "Parthenia" and Alexander was out off immediately afterwards by the Stanford players in the midst of a bar.

Captain I. W. Allen of the California Cadet Corps, stationed at the university, is being blamed for the interruption, as follows:

"In order to correct the general impression held by patrons of the 'Parthenia' on Saturday afternoon, and to save the members of the California Band from further censure, I take this opportunity to state that the musical strains which were played at the intermission were produced by the invading band from the bay and not by home industry."

MANY CANDIDATES SEEK OFFICE IN EMERYVILLE

EMERYVILLE, April 8.—Three sets of candidates are running for the two positions of town trustees at the election today. Fred H. Farr, incumbent, is a candidate to succeed himself as town clerk, and is receiving the support of those known as the "Farrs" and "Farrs," both of whom are running for re-election as town trustees. Arthur J. Webb, Michael J. Hayes, Emmet Stanley and Edward Hanson are also running for the trusteeship. Fred H. Farr, town clerk, is opposed by M. Westergaard. Treasurer Frank T. Foulter has no opposition. Storer and Grant, if elected, have promised to continue the present tax rate of 30 cents.

REPORTS THUGS FIRED AT HIM WHEN HE RAN

ALAMEDA, April 8.—Lagoria, a Bay Farm Island rancher, reported to the police yesterday that an effort was made by four men to hold him up while en route to his home about 1 o'clock Sunday morning. Lagoria had walked across the Bay Farm Island bridge when he was counted by four men south of the bridge. Their actions made Lagoria believe they meant harm to him and he suddenly took to his heels. Several shots were fired by one of the quartet in the darkness, but the flying bullets missed their mark and Lagoria fled to safety in the protecting darkness.

Greatest Crowd in History of Game Watch Oaks and Seals Play Baseball

OAKS OUTCLASS SEALS IN FIRST SERIES OF SEASON

Locals Annex Double-Header by Outplaying Longites in Every Angle of Game; Cook a Big Star

Oakland 4, San Francisco 2—a. m. score.
Oakland 4, San Francisco 2—p. m. score.

Oakland didn't do a thing to those fellows from over the big pond. Oh, no. Six out of seven in the opening series of the pennant race, and had things broke O. K. for the Sharpe crew, it would have been seven out of seven.

As it was, there isn't a kick coming, for if the boys continue the pace they have set, or do one-half as well in the future, there won't be a team in this Coast league that will keep 'em out of the top notch.

Like in every game throughout the week Oakland outplayed and out-gutted the Seals yesterday in the double-header and that tells the tale quicker than the pen.

In the afternoon before lunch 12,000 home town supporters crowded into Freeman park and that mob caused Al White to go out scurrying for more lead to enlarge his bull pen. Every available seat had an occupant and all around the field stood fans and fanettes.

Up to the fourth inning it looked like a battle royal. Then class began to tell and Oakland went to the front with two in the run column. After Leard had been killed off at first Hoffman landed on a boot by McAdie. Henley feared that it illustrated Bert Coy and he walked. Berry couldn't hold the next ball and both runners advanced a base. Zacher then out to Hartley. It was up to hitting and he skinned one in between Corhan and McAdie and the bell clanged twice.

In the sixth Henley's double, Sharpe's out and Mize's drive gave the locals their third run and they scored the fourth in the eighth on Hoffman's single. Corhan wild heave and Reliable Coy's two base run into the crowd in left.

San Francisco scored two in the seventh. Mohler went to third on Raftery's single and went to second on the throw. Hartley's out scored the kid and Tom Meandered on Jackson's single to right. That's all they got.

POPE OUTPITCHES BAKER.
In the p. m. session which was filled with mist and fog, Oakland duplicated the number of runs in the a. m. session and San Francisco did likewise so you know what the boys were up to.

Two innings went by with neither team causing a ripple in the foamy line. Then Mr. Cook showed his worth by polling the ball far into the left field bleachers with a man on the initial sack.

In the sixth the Fighting Oaks found the handsome Mr. Baker easy going and two Oaks romped to the plate. San Francisco gathered one in the third and one in the ninth but those two were not worth a hill of beans to what the Oaks had.

Here are the figures of the two contests that put Oakland away out in front for the pennant.

\$5000 for Gregg if He Wins 25 Games for Davis

LEWISTON, Idaho, April 8.—Vean Gregg's contract with Cleveland will give him \$5000 if he wins 25 games for them this season. The young Nap will have a lot to say regarding the games in which he will work. Gregg gradually is getting into shape, as owing to the lateness in accepting the Cleveland contract he was put several weeks behind the other players in training.

CRACK MIDDLES TO SWAP PUNCHES AT DREAMLAND

Al Young Signs Fast Card for n Next Friday Night Over the Bay.

SAN FRANCISCO, April 8.—Promoter Al Young of the Hawthorne Club has arranged a series of four-round bouts which he will stage on next Friday night at Dreamland pavilion. There are nine bouts on the card and the pick of the boys performing in the West will be seen in action.

The feature bout on the card is a four-round contest between Billy Weeks a middleweight who has appeared in several contests here and made good on each occasion, and "Brick" Burgess, one of the toughest boys in the four-round game. The fans look for a rattling war.

The next bout of importance is the meeting of Jimmy Carroll and Jimmy Edie Camp, the fastest little fighter of his weight in the city. Fox is a corner while Carroll has battled the best boys in his class throughout the country.

Eddie Camp, the fastest little fighter of his weight in the city, will tackle Little Lynch, a local boy who has been coming to the front. They will weigh in at 115 pounds, which will give Lynch an advantage in weight.

The other bouts on the card are as follows: Rufe Turner vs Peter Jensen, lightweights; Willie Watahsa vs Willie Hoppe, lightweights; Harry Savage vs Charles Grande, middleweights; Eddie Burns vs Billy Holmes, welterweights; Johnny Murphy vs Joe Ketchell, lightweights; George Hall vs Gene Perry, bantamweights.

MANY COAST LEAGUE PLAYERS ARE WITH CLEVELAND TEAM

CLEVELAND, April 8.—Cleveland and Detroit will open the 1912 American league season next Thursday. Out of the large squad of players who tried for regular jobs with the Cleveland team this year it appears that Manager Davis will select the following:

Catchers—Livingston, Eastery, O'Neil and Adams.

Pitchers—Gregg, George, Mitchell, Kaler, Krapp, Blanding, Steen, Baskette and James.

Infielders—Hohnhorst, Lajole, Olsen, Turner, Brenkle, Peckinpugh.

Outfielders—Jackson, Birmingham, Ryan, Grimes and Butcher.

LOOKS LIKE O'DAY WILL LOSE USE OF WOLGAST

Little Champion Will Probably Meet Winner of Rivers-Mandot Bout July 4.

LOS ANGELES, Cal., April 8.—Although no articles have been signed, it has been practically agreed that the twenty-round bout between Joe Rivers of Los Angeles and Joe Mandot of New Orleans be advanced to Memorial day with Ad Wolgast to defend the winner on July 4 in Los Angeles.

Wolgast will leave Wednesday for Philadelphia where he will spend a month on his farm. Then he will go to Pittsburgh and box two six-round bouts with lightweights yet to be selected.

A ten-round bout at Philadelphia will follow, after which Wolgast will return to Los Angeles about June 1. These short bouts are undertaken with the view of ascertaining whether Wolgast has fully recovered from his operation for appendicitis.

AROUND THE BASES

The stripes of the Seals' uniforms are not as broad and suggestive as those upon the garb of Happy Hogan, but they are effective, and would help produce a deal of realism if the number of the players were placed upon their chests instead of upon their arms.

Hartley, the new Seal leftfielder, who in a Philadelphia ex-cop, covered his "beat" well and made good on each occasion, and "Brick" Burgess, one of the toughest boys in the four-round game. The fans look for a rattling war.

The new high fence has put two private residence grandstands out of commission. But if the fence were high enough to annoy aviators, young Americans would not be "put out" in the least. He would be on top, as of old.

A study of the Seals, who got a hand when he came up the first time in the morning game, and in the afternoon they had the same feeling about the time it came to the Seals during the opening week.

The sun went behind the clouds at the morning game just as Willie Hoppe lightweights, Harry Savage vs Charles Grande, middleweights; Eddie Burns vs Billy Holmes, welterweights; Johnny Murphy vs Joe Ketchell, lightweights; George Hall vs Gene Perry, bantamweights.

Cook made the homer yesterday, a long pole into the leftfield bleachers, clinching six games for the Seals. This feat earned a nice pair of feet covering for the shortstop and made him solid with the Oakland roster.

Fifteen thousand fans and fanettes crowded through the turnstiles to see the afternoon session and 10,000 sat up to the plate in the morning. The morning game at Oakland. That is sure no baseball crowd.

Big John got a chance to shine in the p. m. game and awaited one far into the night. Some of the fans say that the ball went into the bleachers and then bounced out again. Hildebrand said it didn't, so big John only got a double.

Lex-cop Hartley is getting better and bigger with the war club all the time and if he continues to swing as he does, will be a mighty valuable man to the Seal squad.

President Allan T. Will switch the umpire this week and we shall see how Pearl Barnes, Alvin Board Casey, call 'em. Let us hope that Pearl will be able to gauge a little more life into the franchise than did Billy and George.

OSCAR VITT LANDS STEADY JOB AT DETROIT

San Francisco's Former Third Baseman Will Play Short-stop With Tigers.

DETROIT, Mich., April 8.—The Detroit team which meets Cleveland in the opening game, will present a line-up considerably changed from that of last season. Owing to differences with the management, Shortstop Bush has not signed a 1912 contract and will not be in the game when the season opens. He is to be succeeded by Vitt who comes from the Pacific Coast. Vitt will succeed Moriarty at third, the latter going to left field, according to present plans, when the opposing team pitches a left hander.

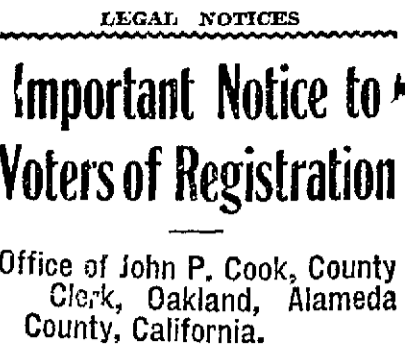

Saynor, who was out of the game most of last season with a broken wrist, will be back at first, fully recovered. About half a dozen new pitchers have been added. The Detroit team will have a new and up-to-date park for the home opening on April 18. Steel and concrete work has been constructed with a seating capacity much greater than the old one.

There were several others in the melee but they scooted when the cops began to arrive. The rumple started over the throwing of custards, by a lot of kids.

Cook made the homer yesterday, a long pole into the leftfield bleachers, clinching six games for the Seals. This feat earned a nice pair of feet covering for the shortstop and made him solid with the Oakland roster.

Fifteen thousand fans and fanettes crowded through the turnstiles to see the afternoon session and 10,000 sat up to the plate in the morning. The morning game at Oakland. That is sure no baseball crowd.

Big John got a chance to shine in the p. m. game and awaited one far into
